TAX EXEMPTION ON FISHERMEN'S GEAR

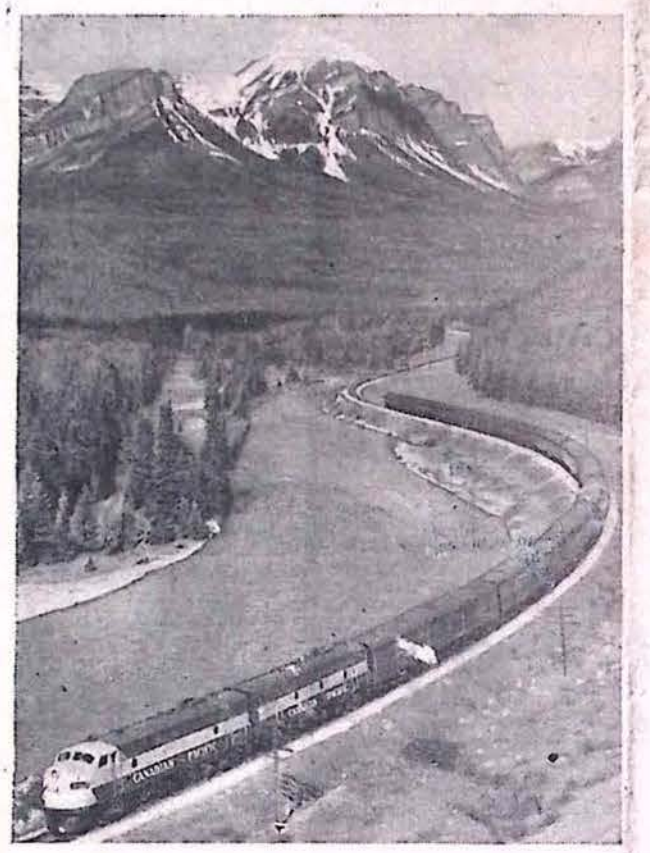

The Fisheries Council of Canada will make a determined bid to have certain gear and equipment used by deep-sea and inshore fishermen exempt from duty and sales tax, Gordon O'Brien, manager of the council, said in Halifax Friday.

Mr. O'Brien said the fishing industry received only slight benefits from the last federal budget and felt, "the government's announcement policy to exempt instruments of production should be carried out."

The fishing industry, he said, was not getting "the same break" as agriculture in tax exemptions although it was on a more competitive basis, exporting from 62 to 65 per cent of its catch to other countries.

While certain equipment such as netting, diesel engines and rope up to one and one half inch in circumference was exempt, the tax still remained on gasoline engines, wire rope and cable, being used in increasing amounts, and a host of smaller items.

Rocky Mountain Diesels

A new era of mountain railroading in Canada is being unfolded as modern streamlined Canadian Pacific Railway diesels the first to go into service in the Rocky Mountains, replace steam locomotives, longtime conquerors of the steep slopes and rugged mountain wilderness. Pictured are two of the 41 diesel units which the CPR has acquired since last fall to dieselize train operations in the Rockies and Alberta foothills between Revelstoke, B. C. and Calgary, Alta., as they pull a passenger train past towering peaks near Lake Louise. Passenger and freight trains on this run, one of the toughest in the world are being given diesel power as part of the railway's five year dieselization program. An additional 18 road and switch engines will be delivered before this fall to completely dieselize the area.

High School Students Tour To Valley

By Pearl Mauger,
Grade XII Student

On Thursday July 3rd at 8 a.m. the Principal of St. Peter's High School, Miss Helen Archibald and her thirty five Grade XI and XII students left on their annual High School trip.

Each year this group of students tour some part of Nova Scotia. This year we travelled up through the Province to Annapolis Valley.

Thursday night was spent at Acadia University where we were granted the use of a recreation room and a group of summer students from the College joined us in some old fashioned square dancing.

The following day we toured the Valley and then to Bedford where we stopped for a while. The next stop was in Truro at the home of Miss Archibald. From there our chartered bus turned homeward to Cape Breton.

We were amazed at the hospitality we received from every one and arrived home on Friday night after having had a very enjoyable trip.

✓High School Graduation At St. Peter's

By Pearl Mauger,
Grade XII Student

The formal graduation of St. Peters High School was held in St. Peters Town Hall on Monday evening, July 30th.

The exercises began with the Grand March. The student body was introduced by Miss Beth Pearo a Grade XII student. Following the singing of "O Canada", Miss Vivian Pottie gave the salutation. The class prophecy was given by Frances MacKay. The class will was read by Joseph La Russic. Norman Spurrell, president of the Student Council and of the Cape Breton Students Congress was the Valedictorian. Pearl Mauger gave an account of the year's activities.

The guest speaker was Monsignor J. M. Nicholson, President of St. Francis Xavier University. He gave some very good advice which I am sure will serve us well in the years to come.

Rev. Father MacEachern and Mr. Chiasson, Inspector of Schools also spoke wishing us the best of luck.

Prizes were given out by Mr. Roy Stewart, Postmaster at St. Peters. Mr. O'Leary, manager of the Royal Bank of Canada at St. Peter's gave out the diplomas to the Grade XII graduating class.

Names of pupils are as follows: Beth Pearo, Earl Landry, Norman Spurrell, Jim Cruikshank, Rene Fougere, Kevin Boyd and Pearl Mauger.

Miss Eva Mauger, Grade XI student made the presentation to the popular principal of St. Peter's High School, Miss Archibald.

Miss Archibald thanked the teachers, parents of the pupils and people of the town for making the year a success. In closing her address to the students, Miss Archibald quoted Francis Sherman's memorable words: "Let us rise up and live."

Following the exercises a graduation dance was held and a very enjoyable evening was spent by all present.

EYE AND EAR TROUBLE

• • •

The following anecdote is circulating behind the Iron Curtain:

"A Hungarian walked into a Budapest hospital and asked for the eye and ear section. The nurse told him that the sections are separate; there was one for eyes and one for ears. "Oh, but I must go to both," exclaimed the Hungarian. I don't know what has happened to me these last few years. I don't see what I hear."

Halifax—The largest single group of United Kingdom immigrants to come to Canada since the Second World War boarded two Canadian National Railways special boat trains here recently on their way to new homes across the country.

Of the Cunard liner Georgic's 805 passengers, 739 were from the United Kingdom. Not since the large numbers of British war brides of Canadian servicemen came to Canada at the end of the war has such a large number of persons arrived from the United Kingdom on a single ship.

Twins In His Footsteps

Veteran Canadian Pacific Airlines Captain Robert C. Randall (front) of Vancouver, shows his twin sons, Howard (left) and Robert Jr., who have just started their careers as first officers on CPA domestic routes, the route he follows on flights between Vancouver and Tokyo for the airline. The two boys are ready any time to listen to dad, who started flying five years before before they were born. Captain Randall began commercial flying in 1928, and his service with the airline dates from 1937, when he flew with one of the smaller companies which amalgamated later to form Canadian Pacific Airlines.

AN HONOR TO CANADA

The inclusion of Jack Miner's name among the 15 great personages of the world is an honor to the man and to Canada where this great naturalist carried on his work. Other listed are Livingstone, Shakespeare, Burbank, Pasteur, Bell, Edison, Laura Secord, Grenfell, Banting, Lord Kelvin, Churchill, George Washington, Florence Nightingale and John Bunyan. All may not agree that this is the best selection; some may prefer to delete names and add others in their place. But there can be no doubt that Jack Miner deserves such recognition, no matter on what basis a list of the world's great men were being prepared. His labor was unique, and its benefits in the conservation of Wild Life are incalculable. Although the man himself is dead the inspiring record of his work must result in that work being continued with the support of private contributions and public grants.

A Drug Store Was The Birthplace of the Cocktail

Some hundred and fifty years ago a New Orleans druggist named Peychaud helped out a friend by giving him some brandy and bitters on the spot. Since Peychaud wasn't used to selling his wares over the counter, there wasn't a glass available to serve it in. But his friend was satisfied to use an egg cup that Peychaud used for compounding prescriptions.

In French-speaking New Orleans an egg cup was a coquetier —pronounced "kok-tyae." As the story of the service the druggist had rendered his friend made the rounds of the city it was transformed into a tale of new and magic brew called a "koktyay."

A demand for koktyays rose speedily, and the cafes of the Creole city obliged. The medicinal purpose of the original mixture was quickly forgotten, and the name was corrupted to cocktail." Hostesses served them at fashionable dinner parties, and their fame spread, first along the Eastern Seaboard, and finally as far as Europe. So the next time you attend a cocktail party, you might propose a toast to druggist Peychaud's kindliness and good taste.

DUNCAN FINLAYSON

The tragic ending of the veteran teacher, Duncan Finlayson, at Grand River touched the feelings of everybody.

A mind of marvelous aptitude for the apprehension and assimilation of knowledge has thus passed on.

We held our annual school meeting in the school-house on the afternoon of the 30th ult., Elliott McLeod in the chair.

There was no change made in the Board of Trustees, the retiring incumbent being reelected.

"Oh, time and change!"

We remember when we taught there for approximately what we get now for maintenance, and did our janitor work gratis.

These were the lean days of educational advantages when the late M. J. T. McNeil, B. A., would harness his horse and sally forth to inspect the schools of two Counties.

Nevertheless, it was common in those years to contact men in whose presence we'd always suffer from an inferiority complex, and a fear lest they'd discover how little we knew in comparison.

If results now are destined to coincide with enhanced benefits, St. Peters will eventually be replete with G W. Kytes; River Bourgeois, with A. J. Boyds; Kempt Road with Hugh A. McLeods; and Point Tupper with A. E. Morrisons.

Leonel LeBlanc and Alfred Boudreau were called to the eastern end of the County where a rush supplement of pulpwood is required at the boom preparatory to the arrival of a ship.

Ceretha McLennnn motored to North Inverness, Friday, to bring home her mother, Mrs. Dan McDonald, who enjoyed a respite from the farm renewing associations of her youthful years in the vicinity of Brook Village.

Jack Thibeau had Alfred Boudreeu motor a truck load of lumber to J. W. Stephens, Ltd., of Sydney, on Monday.

John N. Morrison was a business visitor to the Shire Town, Tuesday.

Mrs. Harold Hayman (Ida Goswell), of Providence, R. I., is visiting her parents, Mr. and Mrs. John W. Goswell, at the old homestead.

It is nice to see Ida again; nice that her parents are still here in comparatively good health to receive her; and nice too that ere she returns her father will be celebrating his eighty-fifth birthday.

HOWARD CABLE

One of Canadian radio's youngest and busiest arranger-conductors is Howard Cable (above), whose newest broadcast series is Cable's Concert Band, heard Sunday evenings at 7.30 on the CBC Trans-Canada network and on MBS in the United States. Born in Toronto, he gave up an athletic career to join a high school organized his own aggregation, which had that 'certain something' that attracted attention and got him his first break in radio. Since 1943 nearly every major radio musical show has featured arrangements by Cablt. He has arranged and conducted for the Leslie Bell Singers since 1948, and during the winter he also waves the baton for the Musical Kitchen radio series.

IT'S BEEN 33 YEARS SINCE THE LAST GENERAL RATE INCREASE FOR TELEPHONE SERVICE

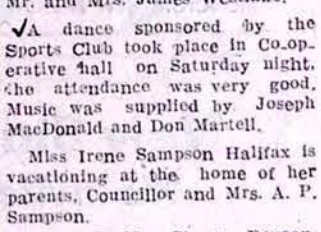

Yes, since back in 1919 when our rates for telephone service were established, there has been no general increase until now. We "held the fort" against continuing rising costs until now—the last of the major privately-owned telephone companies in Canada to do so. This we feel is a real industrial achievement.

The reason for the higher rates is obvious. The cost of providing telephone service has climbed faster than revenues. Even with the present increase, the average telephone bill will have risen much less than the price of most items that make up the cost of living.

In terms of value—telephone service is cheaper now than before the war.

Good telephone service at a reasonable price is still one of today's big bargains.
