Ramblers Win Third Straight

L'Ardoise, July 6th.--Veteran righthander Larry Sampson tossed a neat seven-hitter as L'Ardoise Ramblers set back the visiting St. Peter's Royals 16-9 in a regular fixture of the RCBL played before a crowd of 400 fans. It was the third consecutive victory for the Ramblers who are finally to be beginning to produce after suffering three straight defeats.

• • •

Continues to Surge

The L'Aroisians continued their drive for a playoff berth in cuffing the offerings of two St. Peter's pitchers for twenty-two base hits their biggest output to date. Every Rambler had at least one safety to his credit. Captain Cyril Martel led the way with four hits in five appearances. Martel now has fifteen hits in sixteen trips to the plate for a terrific batting average of .938. Russel Samson and Gregory Martel came up with a pair of doubles, while Larry Samson poled out the longest hit of the game, a resounding triple to leftfield in the 4th with one on. For St. Peter's, Harold Gibson collected a single and a double to knock in four runs and keep the Royals within striking distance of the home team. Mickey White and Jerry Kennedy aslo banged out a pair of hits for the visitors.

• • •

Quick Start

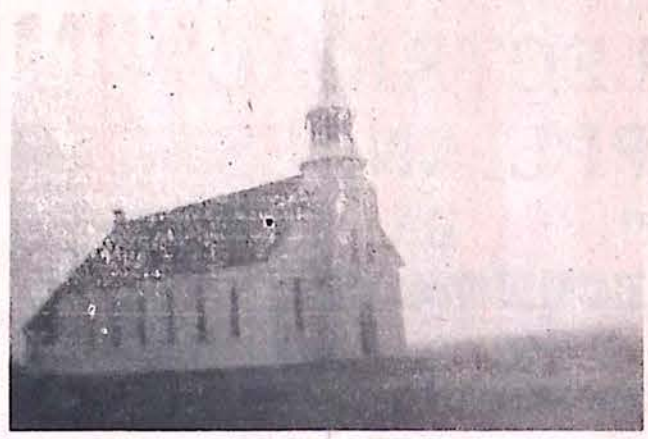

The Ramblers got right down to business in the very first inning to grab a quick three-run lead on Jerry Martel's leadoff, double and singles by Howie Samson, Cyril Martel and Russ Samson. However the lead was shortlived, the visitors coming right back to square things up at 3-3 in the top half of the 2nd. A walk to Skinner, a single by White, a double by Gibson and 3rd baseman Billy MacNeil's error did the trick. The Royals took the lead for the first time in the game in the 3rd when Lloyd Pottle crossed the plate on a hit, a walk and an error. But the Ramblers regained it an inning later as Cyril Martel led off with a Texas leaguer to right centre and scored on Larry Samson's line drive triple down the leftfield line. Greg Martel then spanked a hot grounder between first and second and into rightfield to score Samson with the lead run. From then on, the L'Ardoisians were never headed as they tallied five markers in the 5th, four in the 6th and single runs in the 7th and 8th innings. The Royals counted twice in both the 6th and 7th frames, and garnered a singleton in the 8th.

Stars Afield

Howard Samson starred afield, coming up with a pair of spectacular one hand catches in right field. The one on "Bunker" MacEwen's low liner in the 1st was nothing short of sensational. Everett Skinner of the Royals also provided the fans with a beautiful grab off Howard Samson in the 8th.

PROCLAMATION

By The Honourable A. W. MacKENZIE
Minister of Lands and Forests

To all whom these Presents shall come or whom the same may in any wise concern:

Whereas the Minister of Lands and Forests of Nova Scotia deems it necessary for the protection of the forests to make this Proclamation:

Now Know Ye that the Minister of Lands and Forests of Nova Scotia under and by virtue of Section 11; of the Lands and Forests Act doth hereby set aside on, from and after the 11th of July A. D., 1952, until the 15th day of September, A. D., 1952, unless this Proclamation is sooner revoked, every area of forest land as an area of forest land upon which no person shall enter for the purpose of travelling, camping, fishing, or picnicking, or any other purposes, without first notifying the local Forest Ranger or other person duly athorized to receive such notification of the route, destination, purpose and duration of the trip with dates, and having attained authorization in writing from the local Forest Ranger or other person duly authorized to issue same. Provided, however, that forest land may be entered upon by the actual owner or occupier thereof or his or their employees as such, and by Forest Rangers, fire fighters and land surveyors:

Any person found in and area of forest land without a permit whilst this Proclamation is in force, is, upon conviction, subject to a penalty of not less than Ten Dollars nor more than One Hundred Dollars:

Of which all persons concerned are to take notice and govern themselves accordingly.

Given under my hand at the City of Halifax, this 11th day of July, A. D. 1952.

A. W. MacKENZIE,
Minister of Lands and Forests,
Province of Nova Scotia.

Forests Closed For Dry Spell

Commencing Friday, July 11, the forests of Nova Scotia will be closed to all persons desiring to enter the woodlands for the purpose of travelling, camping, fishing, picnicking or for any other reason according to an official proclamation issued today by the Minister of Lands and Forests, Hon. A. W. Mackenzie.

With forest fires breaking out in sections of the tinder-dry forests which have experienced only one rainfall in the past nine days, it was deemed necessary for the protection of the forests to issue the proclamation Mr. Mackenzie said.

Athough a mass of air moving in from the Great Lakes area is expected to bring rain to the province during the week this may only be a temporary relief to the dry woods as warm weather has been forecast by the Halifax Weather Office to follow on the heels of the rainfall.

Text of the proclamation in part reads as follows:

"The Minister of Lands and Forests of Nova Scotia under and by virtue of Section 110 of the Lands and Forests Act doth hereby set aside on, from and after the 11th day of July, A. D. 1952, until the fifteenth day of September A. D. 1952 unless this Proclamation is sooner revoked, every area of forest land as an area of forest land upon which no person shall enter for the purpose of travelling, camping, fishing, or picnicking or any other purposes, without first notifying the local Forest Ranger or other person duly authorized to receive such notification of the route, destination purpose and duration of the trip with dates, and having obtained authorization in writing from the local Forest Ranger or other person duly authorized to issue same:

Provided, however, that forest land may be entered upon by the actual owner occupier thereof or his or their employees as such, and by Forest Rangers, Voluntary Rangers, fire fighters and land surveyors:

Any person found in any area of forest land without a permit whilst this proclamation is in force, is, upon conviction, subject to a penalty of not less than Ten Dollars nor more than One Hundred Dollars."

BLACK RIVER

H. H. Latimer Awarded Two Contracts

Out of four contracts for road building issued by the Dept. of Highways recently, H. H. Latimer, a prominent contractor of Truro, was awarded two sections, one at Christmas Island, Cape Breton and the other at Chester, Lunenburg County.

Mr. Latimer a native of Arichat, has been engaged in road building for many years and the work performed by this contractor in many parts of the province is a credit to himself and his staff of competent men.

Equipped with the most modern road building machinery H. H. Latimer's garage and storage yard at Truro houses bulldozers, shovels graders, trucks and everything for road building.

We congratulate Bob and wish him continued success.

Russia And Progress

by R. J. Deachman

Every little while we hear the story of Russian irrigation projects. They are widely planned and cover immense areas. Whether or not they are a success when finally completed does not yet seem to have found expression in the Russian press. The plans, however, are a stimulus to the moral of the population and as a Russian paper expresses it, create a mood such as Russia enjoyed during the early construction period of the Soviet Government.

It would be highly interesting if the Government of today in Russia returned to a continuation of the history of some of the projects which were supposed to be developed during the early post-war years of the revolution.

Apparently, however, there is difficulty in turning dreams into realities. It is true that considerable work has been done to improve the navigation system especially in reference to canals.

We have to remember that a large part of the area of Russia is more or less desert and so canals are essential to the development not only in the way of transportatinn but of irrigation. A few years ago a canal 150 miles loug joined the White Sea to the Baltic and indirectly with the Volga and Caspian Sea. Later a canal was built linking Moscow with the Volga River and making the Soviet capital a harbor with outlets into these seas.

Irrigation is, of course, the main features in these projects although navigation is part of the problem. Remember a vast area of Russia is semi-arid. In character the Russian machinery for expansion and development in big projects does not compare with what would be used for a similar project in Canada and the United States. Labor is cheap. It is a drug on the market and so many of these projects which would be impossible because of cost in a high cost economy such as Canada and the United States can be carried on in Russia where the labor used is almost as cheap as slave labor. Besides it serves another purpose—it keeps the poor from raising trouble.

To fight the drought immense ponds have been created and shelter belts established with networks of canals bringing water from the reservoirs to the fields. According to Soviet sources a recent canal called The Stalingrad Canal of course—everything in Russia has a touch of Stalin--is supposed to provide for the irrigation of 13 million hectares of land. These projects are enormous but the Russians are not bound by the ordinary rules of time and place and as long as these things are started and the people hear about them they are proud of the great things which are accomplished or presumed to be accomplished under the Stalin Government. Programs are normally announced when they are only a dream in the eye of an official.

DUNCAN K. FINLAYSON

There passed away at Grand River, June 30th 1952, Duncan Kenneth Finlayson B. A., B. Pe. He was born September 11th 1877 and was a son of the late Kenneth Finlayson and Mary MacLennan.

He leaves to mourn, one sister (Martha) Mrs. William MacLeod, also a nephew D. D. MacLeod, both residing at Grand River, also one niece (Mary) Mrs. Malcolm Morrison at Grand River Falls.

Mr. Finlayson who was a retired school teacher lived on the old homestead at Grand River where he obtained most of his degrees. He attended Dalhousie Law school for some time and was an eminent Gaelic scholar and also studied many other languages.

Mr. Finlayson was a man of stern, but just convictions gained from his untiring effort to gain knowledge from a library which was wiped out in the tragedy that resulted in his demise.

The funeral of the late Mr. Finlayson was held from the Grand River Presbyterian Church conducted by the Rev. Neil MacLean, minister of the congregation. Hymns sung were "The Lord's My Shepherd" and "Abide With Me".

A Gaelic solo "Meet Me There", a favorite of the deceased was sung by Duncan MacKay.

The pall bearers were: Alex K. MacKay, Murdock Finlayson, Rod MacKillop, Dan MacLeod, William MacAulay, Kenneth MacLeod.

Interment was in the family plot in Grand River cemetery.

The sympathy of the entire community is extended to the relatives and friends of the deceased.

SAYS ENDICOTT ONE OF REDS' ASSETS

A Canadian ex-missionary is now "one of Communism's major assets in the whole world," says Maclean's magazine in an article "How Dr. Endicott Fronts For the Reds," by Ottawa Editor Blair Fraser in the July 15th issue.

After a visit to Communist China this spring, James Endicott of Toronto "is the only Westerner offering himself as an 'eyewitness' backing Communist claims of Allied germ warfare in Korea and North China," the article says. But he admits, "I myself wouldn't know one insect or germ from another."

"Endicott says he is not himself a Communist and no one has disproved his statement," but he is a full-time employee of the Canadian Peace Congress -- "the most prominent and the most effective" Communist front group in Canada today reports Fraser. All three of the Endicott children are members of the Communist party, and younger son Steve ran as a Communist candidate in the recent B. C. elections.

A veteran of many years of missionary work in China, Endicott is probably "the only Westerner alive who, speaking in Chinese, can move a Chinese audience to laughter and tears," says the article. He is rated by men who know China well "to be closer to the Chinese peasant.... than any foreigner and more than many educated Chinese."

Privately, Endicott criticizes some Soviet policies, but not in his public speeches. Asked why by Fraser, he said, "I don't want to say things that might cause the Soviet group to doubt the possibility of getting along without war with the capitalist powers."

FOR MEN

We have Gabardine Suits and Pants, Sport Shirts, Socks, Dress Shirts, Shoes, Etc.

Your visits and purchases at our store will be profitable to you and appreciated by us.

Attention! Lumbermen

We are pleased to announce that we have recently been appointed authorized Dealer for I. E. L. Power Chain Saws, a power tool which we have no doubt would prove of great value to your type of industry.

Terms may be arranged by anyone in good credit standing.

In these days when labor is scarce and high priced you should not neglect this opportunity to save on operation costs in this way by purchase of one of our I. E. L. Power Saws.

We suggest you come into our office where you may see this new saw on display.

Sporting Mountain Echoes

Mr. and Mrs. R. A. McFie (Agnes Morrison) were transient motor visitors from Glace Bay, Saturday evening enroute to Lake Ainslie, where their boys, Norman and Johnnie are in camp.

Arthur Morrison was a motor visitor from River Tillard Sunday evening in the pretty Pontiac he recently secured in an exchange.

Albert Bouchard, Oban, recently enjoyed a furlough from the occupation army in Germany to Scotland where he was hospitably received.

Alfred Boudreau and Jack Thibeau were to Sydney, Tuesday.

While in the Steel City, Jack invested in a jeep which will render more diversified service than a motor truck.

Snails (not the species which carry their houses on their backs) are nigh as plentiful in this area as were the frogs which plagued Kig Pharoah preparatory to the exodus to a "Promised Land".

Alice Flynn and her promising little nephew, son of Mr. and Mrs. Alex Gordon of Sydney, accompanied Ceretha over the mail route the other evening.

Congratulations are in ordre to Mr. and Mrs. Gordon (Kaye MacDonald) upon the recent arrival of a brother for James.

While jotting down these items it was pleasing to be interrupted by a social call from Hugh MacInnes, Dundee, and his brother-in law Bert MacDougall who is making a good recovery from a recent illness.

We thank the dispenser of "Dundee Dew Drops" for dedicating a refreshing one to us.

In a recent contribution we claimed her as wholly a product of ours, but it does not necessitate superlative intelligence to discern a something in "A.F.'s" writings that was never inculcated by the precept and example of any teacher."

Nova Scotia Safe Haven For Hay-Fever

Nova Scotia, long renowned as a safe haven for hay-fever sufferers, has been given a stamp of approval by both the Nova Scotia Department of Health and the Nova Scotia Department of Agriculture and Marketing, following a twoyear survey and investigation of the prime cause of the summer-time affliction--ragweed and its pollen.

"The ragweed-hay fever situation in Nova Scotia is good," said Dr. J. S. Robertson, Deputy Minister of Health for Nova Scotia, in releasing an outline of the two-year survey and control campaign which his department had carried out with the assistance of the Department of Agriculture and Marketing.

It is the opinion of both departments that their conrol efforts will ensure the continuance of N. S. as a safe haven for those suffering from hay fever and may eventually lead to complete eradication of the weed except in one or two limited areas.

In commenting upon Dr. Robertson's release F. W. Walsh, Deputy Minister of Agriculture and Marketing, stated that during the hay fever season of 1951, nine ragweed-air-index stations were operated in Nova Scotia for the purpose of determining the freedom from hay fever in several widely-scattered areas. Two stations were operated near Ingonish, in Cape Breton's National Park, and one each at Baddeck, Antigonish, Truro, Chester, Pubnico, Meteghan and Digby. The average air-index of the nine stations was 0.63 with only one station reporting an air-dex above 1 reported Mr. Walsh.

"The only definite measure of the freedom from hay fever in an area is found by counting the pollen grains of the ragweed carried," said Dr. Robertson. The count covers the ragweed-air-index. An area having an index of over 10 is not recommended, below 5 is good and below 1 is excellent.

"In order to appreciate how small is the percentage of ragweed pollen found in Nova Scotia,' said Dr. Robertson. 'It may be mentioned that the air-index found in one large city in eastern Canada, last year, varied between 20 and 60 and that air-indexes in some areas further south, run even higher. In contrast to this, that of Nova Scotia is extremely low and there is every reason to believe that the province will continue to be an area in which sufferers from hay fever will find considerable relief.

LADY NELSON SAILS

Halifax—Bringing a number of Canadian and United States visitors to the Martimes, the Canadian National Steamships liner Lady Nelson docked here recently. The liner, which is in command of Captain D. C. Wallace, OBE, DSC. of Pictou, N. S. was enroute from Montreal to Boston, Bermuda, the West Indies and British Guiana.

Passengers sailing from Halifax for Bermuda included Dudley G. Butterfield head of a large importing firm who has been here in connection with trade with the Maritimes. Others were Mrs. Doris Cairns, Mrs. Elsie Moorehouse, Mrs. Jane Wilkins and John Simon, all of Halifax. L. W. Atkinson, chairman of the Board of Managers of St. John's United Church, here, was going to Barbados.

During her day-long lay-over here, the Lady Nelson's 60 passengers from various sertions of the United States and Canada had an opportunity to sightsee and shop in the city and surrounding areas. Thousands of persons took the cruises between Boston and Halifax and Montreal and Halifax last year and came to the Atlantic Provinces on vacations.

The CNS liner loaded a cargo of Maritime commodities while in port including fish, apple juice, poultry, eggs ,vegetable and other foodstuffs, lumber, building products and manufactured goods for the West Indies.
