St. Hyacinth's Church and Sampson Home Destroyed By Fire At D'Escousse

ST. PETER'S NEWS

BY ROBIN HOOD

Here we are again, after a lapse of two weeks. We recently complained of the inclement spring weather which kept us confined to the fireside and home, and now the heat for which we must admit, has partly taken the kinks out of our joints but has driven us to the shade.We are queer mortals, one minute we are complaining of the cold weather and the next of the heat wishing at the time of writing we were near the "North Pole".

Speaking of the north, the good little ship, "Bowdoin", has once more started on her cruise to the far north in command of Admiral MacMillan and his amiable wife and shipmate, who has accompanied her husband on several expeditions north.

The "Bowdoin," is well known here having gone through the Canal on several occasions.

We understand this is the final trip for the "Bowdoin" and that Admiral MacMillan will retire from the sea.

Fred Johnston, General Motors dealer, here was a recent visitor to Keltic Lodge, on the Cabot Trail. He was accompanied by Mrs. Johnston. At the Lodge a convention of Automobile dealers was held.

Mr. and Mrs. Joseph Mancini, were recent visitors to Amherst where they visited their daughter, (Betty), Macdonald.

Mr. and Mrs. Harry Cotton and family of Whycocomagh, were visitors to town recently.

The passing of Pipe Major, Jack MacDonald, has occasioned widespread sorrow in the community. A piper of renown, he was known and beloved by all.

Billy Pearo and Ambri White of the staff of the Royal Bank, at Halifax, were brief visitors to their homes here.

L. A. C. Charles MacIntosh, of the Royal Canadian Air Force, who is stationed in the West, is on furlough to his home here.

A welcome visitor to town is Miss Maud Matheson, of Boston, Mass. who will spend the summer at the home of Mr.and Mrs. Ken. Matheson.

Coun.James Johnston, of Johnston, was a visitor to town last week.

A grand old man, Jim Johnston is keeping alive the spirit of his ancestors who helped blaze the trails of Cape Breton, bringing distinction to his worthy race.

Your last yarn in the "Old Spinning Wheel", was well spun, Mr. MacLeod, and brought to light the old timers who took up residence in our town, and who played such an important role in the everyday life of the community in those early days.

Cape Breton's Wealth Of Beauty

By WM. D. J. MacDONALD

Someone has said that here in Cape Breton we have two months of summer and ten months of winter. Although that remark is certainly a distortion of the facts, it may well be said that for ten months of the year we look forward with keen anticipation to our two months of summer. And there is certainly every justification for our enthusiasm over our summer season, for when the weather is right and typical of our climate, there is no more glorious vacationland than this our little island home of Cape Breton.

Geographically located in the most easterly extremities of the Continent, our island stands as a bulwark against the roaring onslaught of the mighty Atlantic. But, let no one entertain the illusion that because of our location we live on a pile of wind-swept rocks that are nothing more than a menace to navigation. On the contrary, the natural beauty of Cape Breton is surpassed by few other places on this or any other continent.

In appreciation of this exquisite creation by the Great Architect and Fashioner of the Universe, many thousands of tourists travel thousands ofmiles year after year to feast upon the scenic beauty of this island.

It has often occurred to the writer that natural scenery is like a great painting or work of art in so far that everyone cannot fully appreciate its worth. There are many who have no sense of beauty so far as scenery is concerned. The contour of rolling hills, tree-studded mountain slopes, rushing brooks and the sparkling sea breaking in seathing foam upon a rocky shore holds no fascination for those who do not appreciate natural beauty.

Perhaps many of us who were born and brought up in Cape Breton have become so used to it that we just take it for granted and have become more or less immune to the scenery that meets the eye in all parts of our island.

Certainly anyone who cannot truly appreciate the beauty and splendor of natural scenery is deprived of one of the senses that makes a happier and more enjoyable life. Pretty scenery is inspiring to the soul of those who adore its beauty. It nourishes the personality, brings a joy to the heart that at least temporarily wipes away all wordly cares and fears. It makes one feel, like the Poet Browning, that God's in His Heaven, and His invisible spirit reassures us that in the presence of His handiwork, all must be right with the world.

The day may come when man will no longer value a place in in terms of mineral wealth, oil resources, and suitability for commercial purposes alone. As man cannot live by bread alone he may someday become aware of the fact that the greatest of all natural wealth is not found beneath the ground in vast deposits of valuable minerals, gases and oils, but above ground in the inspiring beauty of flowers and trees, rivers and lakes, rugged mountain pinnacles, green sloping hills and valleys.

That great Scottish-born American naturalist, John Muir, who did more to preserve the great forests of the United States, than any other man, and could be truly called the father of America's great national parks, once said, "Wilderness is a necessity, mountain parks and reservations are useful not only as fountains of timber and irrigating rivers, but as fountains of life. Everybody needs beauty as well as bread, places to play in and pray in, where nature may heal and cheer and give strength to body and soul alike."

Yes, there is food for thought and meditation in the great beauty that surrounds us here in Cape Breton. In fact it may not be inappropriate to say that this little island is one of God's great open air sanctuaries where man may worship Him in the Presence of His wonderful Works.

MR. & MRS. WARREN JONES

One of the Oldest Churches in C. B.

Citizens of D'Escousse were shocked on Tuesday, when fire broke out in St. Hyacinth's Church, resulting in the total destruction of this beautiful church.

Property of Alex Sampson, was olso destroyed, with the exception of the furnishings which were removed by willing workers, before the fire claimed the dwelling—one of the most attractive in that village.

Alex Marchand, sub-ranger, of Louisdale, under whose direction the pumps were set up at the shore together with the fire pump from Arichat, later supported by Port Hawkesbury firemen, who also brought a pump from that town, all played an important role in saving further loss.

The property of Dr. Gardiner, the Convent, and property of Ambrose Poirier, were in grave danger, when cinders and terrific heat from the blaze of the large church kept fire-fighters on the alert for some time before the tower and roof of the church collapsed under the terrific blaze.

We expressed our sympathy to Rev. Father W. A. Boucher, who had been the faithful pastor of St. Hyacinth's for the past 46 years. With tear-dimmed eyes, watching the blaze destroy his beautiful church, his spirit was undaunted and we feel confident that Father Boucher and his parishioners will start plans at once to erect a new St. Hyacinth's to serve the people of the North Side.

Sympathy is also extended to Mr. and Mrs. Alex Sampson, aged residents of that community in the loss of their beautiful home.

We understand that this property was not covered by insurance which makes Mr. Sampson's loss a greater one to endure.

BEAUTIFUL TROUT IN GOD'S OWN COUNTRY

Nova Scotia fishing comes in for some high praice in a brand new book, "Spinning in America," by Ray Ovington of New York City. Ovington, who has made several trips to the province under the guidance of the Nova Scotia Bureau of Information, reports that Nova Scotia has "native brooks that have no equal anywhere—beautiful trout right in the middle of some of God's best country."

"RURAL YOUTH plans its future"

What Canada's rural young people are doing to build a happy and useful future is told in the Royal Bank's Monthly Letter for July.

Nearly 100,000 of these young Canadians are studying, planning, building the year round. Through clubs and groups, they develop "health, heart, head and hands". The Letter, entitled "Rural youth plans its future", tells their inspiring story.

Rural community leaders may wish to use this "Letter" to broaden interest in the work of their own young people's groups. The Royal Bank will be glad to supply bulk quantities for such purposes on request. Write to Monthly Letter Dept., 360 St. James St. W., Montreal.

River Bourgeois

A music Festival was held in the River Bourgeois, Parish Hall, sponsored by the teachers and pupils of School Section No. 41. There was singing and dancing, and lots of entertainment, with Miss Gene MacNamara at the piano.

The teachers are to be complimented on having made the Festival such a success, which was enjoyed by all who attended.

A sum of money was collected, and presented to Miss MacNamara, Teacher, by Miss Marie Boyd, Cannes, for her untiring efforts in helping to make the Festival such a success.

At the closing Warden Sampson moved a vote of thanks to the teachers and pupils for having staged such a wonderful performance. Thus ended by singing God Save the Queen.

A game of baseball was played on the River Bourgeois Ball Field, between Hawkesbury and River Bourgeois. The visiting team defeated R. B. by a score of 14 to 10.

Three players on the R. B. team were out of the game due to illness.

NOVA SCOTIA COAL – THE THRIFTY FUEL

USE
NOVA SCOTIA COAL

It's hard to beat Nova Scotia coal as a heating fuel. It gives *greater comfort* at *lower cost* and it's flexible. There's a type of coal for every purpose.

For example, in cases where space heaters are used, best results can be obtained by using a washed nut coal. Best of all, of course, is DOSCO washed nut coal used in a smokeless stove. Developed in the Maritimes, the smokeless stove gives steady heat at low cost. And it requires firing only once in 24 to 36 hours.

For Nova Scotians particularly it is cheaper and more efficient to heat with coal. The coal industry is Nova Scotia's greatest industry. An abundant supply, mined by modern methods, gives Nova Scotians a price advantage on a fuel that is clean, safe, efficient, and gives more heat per dollar than any other fuel.

Protect Your Future – Use Nova Scotia Coal
