Clerk-Treasurer's Report To Council

Mr. Warden and Councillors:

Once again I am permitted to be with you in the last Annual Session of a Council. The present is the 28th Council of this Municipality and this, its last Annual Session, heralds its passing out upon the broad bosom of departed time.

On the whole, the 1954 Municipal Financial Year was a good year. Tax collections, in comparison with those of the past 20 years reached record proportions. The total was $117,155.16. It may be alleged this was due to the Collection, after a hard fought legal battle, of the Mindamar Metals Corporation's 1953 taxes, $24,889.70, yet the latter taken from the grand total unfolds $92,265.42 as the amount of taxes paid in 1953 by the rank and file of our Municipal taxpayers—and constitutes another shining record in the annals of our Municipality. These Collection figures are the living proof that Richmond County is NOW on the March to an exalted position as a Municipal unit of this Mayflower Province.

Our forebears, now so quietly sleeping in our Churchyards, conceived this ideal Municipal setting fostered and nourished it through out their lives, and "as from their failing hands this Torch they threw" prayed fervently, the character and integrity of their children and grandchildren would reflect honest and efficient public services—thus bringing their conception of a perfect municipality to full fruition.

Over the years, action to bring about this happy ending, has been constant, varied but to meet the currents of the times. As the historian records, municipal progress across the years has been a series of advances and retreats, but the retreat always less than the advance. Ultimately the preponderance of the latter has overcome selfish reactionary and worshiping of the Golden Calf.

Figuratively, the foregoing expresses the NOW consider opinion of the great majority, that the 1955 Assessment is the crowning act of long years spent in honestly bringing about the financial rehabilitation of Richmond County. Said assessment, as time marches on, will be recognized as an intelligent precursor of the able and progressive Pothier Report on modern school financing, will stand as a tribute to the wisdom and foresight of our current Council. In time, for all of this, "posterity must arise and call you blessed".

The cost of Social Services are ever on the increase. The limit for Hospital responsibility has been extended to $9.00 per day.

The advent of the Disabled Pension should afford some relief in the distribution of Municipal Poor Relief.

On a cash basis, for the year under review, 1954, our receipts and expenditures were as appended herewith.

Respectfully submitted,

E. C. DOYLE,
Clerk-Treasurer.

Hon. R. H. Winters Reports From Ottawa

Dear Mr. Editor:

The Debate on the Speech from the Throne was terminated by a vote on Friday in which the Government was upheld 99 to 69. Prior to that, two amendments introduced by the Social Credit and the CCF groups were defeated by 138 to 35 and 204 to 23 respectively.

I can't say that this was the best debate I have heard since coming to Ottawa. There were many fine speeches, among them being the one given earlier in the week by Allan MacEachen, M. P., for Inverness-Richmond, setting forth the problems of the coal industry and the difficulties faced by the citizens of the Port Hawkesbury-Mulgrave area. But, in the overall there was no pattern to the speeches. Rather, individual Members addressed their remarks almost exclusively to local issues, in which there is not always enough bread interest either to held the attention of the House or be givtn recognition by the press.

My impression of the outstanding development in this parliamentary session to date is the split within the CCF party and the open conflict between Opposition groups in the House. On reading Hansard you will be struck by the fact that the Opposition parties devoted more time to attacks on each other than they did to criticizing the Government.

There is a feeling in political circles that the Progressive-Conservatives and the Social Credits are very closely allied to each other, and there has been talk that they were on the verge of joining forces. These rumors may be true, but no supporting evidence developed during this debate, which wound up with heated attacks and counter-attacks beween leading supporters of these two parties.

The Commonwealth Prime Ministers' Conference which has been meeting in the shadow of the Formosa crisis and the developing instability in the Government of France, will terminate this week. The Prime Minister of Pakistan, who used to be the High Commissioner to Canada, announced his country's decision, take some months ago. to become a republic, on the same basis as India. He stated at the same time that as a nation they wish to stay within the British Commonwealth of Nations. Mr. Howe our Acting Prime Minister, made a statement on this subject on Friday.

The Prime Minister will return home late next week and will doubtless give a full report to Parliament. Before doing so he will be awarded the Freedom of the City of London, which is the highest honour Britain's oldest and proudest community can bestow.

Yours very truly,
ROBERT H. WINTERS

The usual grant was voted for this worthy cause.

The Council adopted in principal the findings of the Pothier Report on 'Public School Finance' in the province of N. S.

Much discussion took place on this important subject.

The session adjourned on Saturday, January 28th with the singing of the National Anthem.

50th Wedding Anniversary

A happy reunion took place on Sunday, January 23rd at the home of Mr. and Mrs. Clement MacDonald of 1 Hopkins St., Dorchester, Mass., in honor of Mrs. MacDonald's uncle and aunt, Mr. and Mrs. Joseph Landry of 40 Corbet St., who were that day celebrating their Golden Wedding Anniversary. Members of the family attended Mass at St. Matthew's Church which was offered to the intention of the jubilarians by Father Edmond Cornellier.

Present for the occasion were the couple's seven children, Cecile (Mrs. Remi Pertus) who resides with her parents; Ina, (Mrs. Emile Theriault) Belliveau's Cove; Wilfred and Gerald of Medford; Edith (Mrs. Alvin McDonald) of Montauk, N. Y., Cletus of Montreal and Jeannette (Mrs. Roger Bloum) of Quebec; as well as Leo Landry of Brookline; Helen (Mrs. Edgar McDonald) and Estelle (Mrs. Clement McDonald) both of Dorchester, children of Mr. Landry's twin brother the late Louis Landry, who were brought up by their aunt after the death of their mother in early childhood. Mr. and Mrs. Landry have twelve grandchildren and one great grand child.

At the dinner hour Monsignor Waldo Hasenfus, pastor at St. Matthew's, honored the family with his presence, and though unable to remain for dinner, he offered a blessing and addressed congratulations to the happy couple as they sat at the table surrounded by the ten children who formed the family back home at Poulamon many years ago. Also present at the dinner besides the children and their families were a few close relatives and friends including a niece, Miss M. C. Sampson and Mr. Garner Sampson both of Newton. Serviteurs were Mrs. Leo Landry and daughter Josephine, Mrs. Bill Hannon and Mrs. Joseph-Malone.

The rooms were beautifully decorated with yellow roses, chrysanthemums and gladioli, while white and gold bells with gold satin streamers were hung in the archways, leading to the living room and dining room.

Beginning at 4 p.m. and on into the evening an "open house" reception was held when many relatives and friends called to offer congratulations. Among the many former residents of Isle Madame who called were Albert LeBlanc who was best man at the wedding in 1905 and Mrs. LeBanc, Mr. and Mrs. Matthew Benoit, the former's sister, Mrs. John Dunn and Mr. Dunn. Mrs. Annie Barrett of Gloucester, Mrs. Emma Joyce of Roxbury, Mr and Mrs James Pitts of East Boston, Mr. and Mrs. Alva Pertus, Mr. and Mrs. Charles Sampson, Mr. and Mrs. Lennox Fougere, Mrs. Cecile Landry, Mr.

THOUSAND LETTERS PLUS FOR CBC SLANDERS SHOW

A recent tabulation of 1954's fan mail for Don Messer and his Islanders heard every Monday night at 9.00 p.m. AST indicates there still is a great demand for old time jigs and reels.

During the year just passed Messer received 1184 letters commenting on the program and requesting selections. Some of the listeners were interested in the Islanders themselves--what they looked like and how they got started in the world of old time music.

Surprisingly enough the greatest number of letters (422) came from large cities in Ontario with Nova Scotia running second with 103. Twenty-four states of the US A were heard from with 57 letters coming from New York alone.

"Don Messer" and his Islanders show is recorded for distribution to units of the Canadian Armed Forces. The most distant request for the program came from six Canadians in Korea who listen regularly to the Prince Edward Island origination.

ODDS AND ENDS BITS

In showbusiness it is always the star who gets the publicity, but there are those unheralded actors who play what is known in the trade as bit parts. These are generally taken by actors still on their way to becoming stars themselves, and Louis Negin (above) is one of these. But life is not dull Negin, for example, in recent CBC for these players by any means; radio and televison productions played such diversified roles as a dead man, a snake charmer, an Arabian policeman, an Indian scholar and a Moslem priest. The road to stardom isn't easy.

Reflections

I'd like to see the sundown flight again
Of crows, from Battery Hill to Handley's Isle;
To hear the chime of cow bells down tht glen,
Or see a line of sheep at evening file,
Across the uplands to some sheltered fold,
With day departing in a splurge of gold.

For one can weary of the Great White Way,
Whose lights and lures are sometimes slightly false;
So let me hear an old-time fiddler play,
The "Chicken Reel" or some old-fashioned waltz.
And help me find (if I may be so bold)
A cottage where ghost stories still are told.

NOVA SCOTIA COAL — THE THRIFTY FUEL

The Dosco Miner

Use NOVA SCOTIA COAL

In all the years Nova Scotians have been mining coal only 19.6% per cent of the known supply has been used. There is coal available for many years to come. This unlimited supply, plus efficient, modern methods of production are two of the reasons why heating with coal is easier on your pocketbook.

For example, there is the "Dosco Miner". Designed, engineered, and built by our own staffs, the "Dosco Miner" can extract and deliver to the loading conveyor one and one-half tons of coal in 13 seconds. No explosives are required thus making this form of coal mining safer and more efficient.

The "Dosco Miner" is only one of many new modern methods now being applied to coal mining. The benefits are passed along to you in the form of *lower fuel costs* and *higher fuel efficiency.*
