FIFTY-NINTH YEAR — ARICHAT, CAPE BRETON, N. S., NOVEMBER 12, 1955 — No. 11

Herd of Bowater Cattle Pride of Arichat Farmer

(The following article featuring Rock Loaf Farm, appeared in the October 28th issue of the "Chronicle-Herald" written by a staff reporter.)

ARICHAT — Rock Loaf Farm, in this Richmond county shiretown on beautiful Isle Madame, is unique in many ways, but nothing gives owner J. Emile Benoit the same glow as his herd of Bowater cattle—the first ever brought to the mainland from Newfoundland.

Mr. Benoit, prominent young businessman and farmer, recently received 11 heifers of the famous strain, all under three years, some in milk and some not.

These are able looking cattle with striking uniformity.

It is the plan of Rock Loaf farm to build up the Bowater strain and follow its blood lines.

Foundation stock for the Bowater Pulp and Paper Limited farm, Cornerbrook came from Scotland and were developed with outstanding success under direction of M. R. Bell, the farm manager, who is a Scotland native.

The Bowater Arshires have set many records in milk and butter fat production.

Mr. Benoit tried for some time to get Bowater stock before he succeeded — and then could get only 11.

First of the Bowater strain to come to Cape Breton was prize bull "Butterscotch," brought to Hay Cove by school teacher-farmer Mike MacNeil.

That started the Rock Loaf campaign to get the first exported Bowater herd.

Rock Loaf Farm is one of unusual features. Its 100 acre spread is located on theedge of the village, about a half mile from the main street.

It's on the other side of a hill and offers a striking view. The name is from a huge loaf-shaped, scrub-covered pile of rotten rock, which shields a four-foot deep natural artesian well, which seldom reaches above 45 degrees in heat of Summer.

Source of this is believed to be what is called Botomless Lake, several hundred yards away. This is a freshwater lake stocked with trout. Scores of springs empty into it.

On the shore side of Rock Loaf Farm is a salt water lake, where there is good fishing and swimming. The lake is just off the beach from Rocky Bay. It has what is called an inside beach—a short distance from the sand and breakers of the bay.

At the entrance to the farm are a series of small hills and depressions and traces of gypsum—reminders that gypsum was once mined on the land.

• • • •

Mr. Benoit and farm manager Francis Britten this year introduced "zero pasturing" for the herd.

A new type harvester, an oversize lawn mower, cuts and loads grass and blows it into a bulky, home-made feeding cart, which brings pasture to the cows until all the silage is made.

This method enabled recovery of 300 tons of silage this season, compared with 100 in 1954 by keeping the cattle away from the fields.

Silage must be collected in 10 days, and speed is a must, Mr. Benoit said.

• • • •

An experiment in progress is a surface silo with over-ripe hay and after grass from a nearby 80-acre farm, Mr. Benoit said the experiment is being watched with interest by the Department of Agriculture and the silage will later be checked for potein content.

If the experiment is successful, large quantities of over-ripe hay will be harvested in order to get the after grass.

The farm is one of few in the province using the Doane-Pole barn — often called "loafing barns." This one has room for 50 head to to roam around, munching at the self-feeding silos. The ground or floor, inside is covered with straw at intervals during the non-pasture season and fertilizer preserved until ready for use.

The original plan calls for front of the barn to be open, butit was not practical in this climate, and so only two openings are used. It is claimed a barn of this type pays for itself, cuts labor by 50 per cent. Mr. Benoit vouches for its success.

Mister Hockey

FOSTER HEWITT doesn't need any introduction to Canadians. Enough to say that he's on hand once again to broadcast the National Hockey League games every Saturday night—a weekly assignment he's had since the Maple Leaf Gardens opened in 1931. Hewitt holds a world's record for length of service in broadcasting; he started in 1923 when he was eighteen, and shortly afterwards made the first broadcast of a hockey game in Canada. Ever since then he's been so closely associated with the game that he is as well known to hockey fans as any of its greatest players. While in college he was undefeated boxing champion, and has written many books on hockey.

Proposed Site For Model Highland Village

New Glasgow, N. S.—Two locations in Pictou county and two on Cape Breton Island were proposed as sites for a model Highland village at a meeting of the Nova Scotia Association of Highland Societies here recently.

Suggested locations are Pictou Landing and Green Hill, Pictou county and Iona and Loch Lomond in Cape Breton.

The Highland vilage project was a dream of the late Nova Scotia premier Angus L. MacDonald. Its supporters say it would be a top tourist attraction.

A four-member committee will recommend the site and there may be some strenuous debate before the location is decided. The provincial government is expected to contribute toward the cost.

Seven Areas Contaminated

Seven Areas on the New Brunswick and Nova Scotia coasts have been declared contaminated and their shellfish unsafe as raw food.

The areas mainly inlets and beaches, are listed in the current issue of the "Canada Gazette." The regulation applies to the export licensing of clam and oyster fishermen. Only fishermen in safe areas are given licences.

The regulation also increases the area safe fishing in Tatamagouche Bay, N. S.

One new area in New Brunswick is declared to be contaminated. The Bay of Chaleur and Restigouche river between Miller Brook and Christopher Brook, including waters off Dalhousie and Campbellton.

Those in Nova Scotia: Forchu, Inlet Harbour and L'Ardoise, in Richmond County; East Sandy Cove, Sandy Cove, Little River and Little River Cove, Digby County; waters between Brier and Long Islands, Digby County; and the Avon, Gaspereau, and Cornwallis River, Hants County.

THE TEACHER

They look to her, these little ones
Assembled here each day.
Her teaching art the potter's wheel,
Their thoughts the potter's clay.

It is her task to lead them on.
Into the glowing light,
Where wider worlds of learning,
Become focused in their sight.

Step by careful step she guides,
The eager ones, the slow,
And confidently gaining lore,
They thrist the more to know!

The school year ends, the work is done,
Forever they'll hold dear—
The happy hours of learning,
That they have shared in here!

River Bourgeois News

First we must thank our good friend, Miss Marie Boyd, for sending us the "River Round Up" and to congratulate her on her good work. With Marie's permission we give you the following news items:

The Mission which was conducted by Fathers Vien and Pilotte recently, were largely attended by parishioner. On Saturday, the last evening, the altars were beautifully decorated, the gold lace cloth frontals for the altars, being used for the first time. The ace, as well as soutanes for the altar boys, and Priest's vestments, have been purchased by funds raised by the Catholic Women's League and we think it is an organization well worth patronizing. The Mission Fathers were struck with the beauty of River Bourgeois.

Peter Digout has returned from a visit to his sister, Mrs. Arthur J. Meade and family of Brookline, Mass.

Mr. and Mrs. Charlie Boucher and daughter of U. S. A., who spent two weeks at their home here have returned. Charlie is the son of the late Mr. and Mrs. Firmin Boucher.

Two homes have recently acquired electricity in the community, those of Isiah F. Burke and of Fred LeBlanc. Very few homes here are without this convenience. Counting up cars and trucks from the place, we counted 83 altogether, which means a car or truck for every 2 1-2 families and for every 10 people.

Mickey Burke accompanied by his mother, Mrs. Dominic Burke, motored to New Jersey, where they will visit for a couple of months before returning home. We miss Mrs. Burke very much at our C.W.L., card parties.

We extend our sympathy to Mrs. Edgar MacPhee, Hawker, on the death of her of, her father, Mr. Mailette at Tracadie, recently.

Mrs. Thos Babin, has recently bought the house owned by Mr. and Mrs. Lou Smith on the Church Point. Mrs. Babin, who was the former Delta Robertson, has been living with her parents, Mr. and Mrs. Willie Robertson, since she moved here from Arichat.

William Robertson has returned home from Camp Hill Hospital, somewhat improved in health.

Mr. and Mrs. George Wood and children, of Sydney; also Miss Mary Sutherland, daughter of Mrs. and the late Mr. Neil Sutherland of Halifax; as well as Miss Patsy MacKinnon, a daughter of the late Capt. and Mrs. A. H. MacKinnon, formerly of Arichat, spent a week-end here recently at the house owned by Mr. and Mrs. Frank Hamm here. Mr. Wood, Mary and Patsy are all members of the Canadian National Institute for the Blind.

We are sorry that we were not at home when Patsy called at the house, she being a schoolmate of both Cil and myself while attending Arichat Convent.

A campaign for funds for the Institute in this district netted $61.25 and is $8.00 more than our last year's collection. Thanks to our collectors as well as to donors.

Mr. and Mrs. Amable F. Burke were the guests of their daughter, Mrs. Anselm Dugas, for a week recently.

Mrs. Jennie O'Neil has returned home to Sydney, after spending over two weeks vacation as the guest of Mr. and Mrs. Hilary Morrison.

A pretty wedding took place in St. John the Baptist Church here on Tuesday morning, October 25, when in the absence of Rev. Fr. Sampson, P. P., Rev. Fr. Gerrior, of Louisdale parish, united in marriage, Josephine, youngest daughter of Mr. and Mrs. Isaac F. Burke and Arthur, son of the late Mr. and Mrs. Dennis P. Morrison.

The bride was becomingly dressed in a green ensemble, with matching accessories in brown, while her sister, Norah, who was bridesmaid, was dressed in grey, with red accessories.

The groom was attended by his brother, Archie, who had come from Halifax for the happy occasion.

After the ceremony a wedding breakfast was served at the home of the bride, to close friends of the bride and groom.

Afterwards the happy couple left for Halifax, where they will visit friends and relatives afterwards proceeding to P. E. Island where the remainder of their honeymoon was spent. The best wishes of their many friends goes with them.

Mr. and Mrs. Hilary Morrison, accompanied by Mrs. Morrison's brother, James T. MacNamara, also a friend, Mrs. Jennie O'Neil of Sydney, were on a motor trip to Canso recently.

We are glad to say that Mrs. Vitus Burke, who was on the sick list, for some time is much better. During her illness, Mrs. Burke had the help of her sister-in-law Miss Emily Burke of South R. B., also her sister, Esther (Mrs. Arthur Pottie) of Halifax.

Miss Edith Bouchard, who is employed at Halifax, spent the week-end at her home here recently.

HAIL PRINCESS MARGARET!

(The following editorial appeared in the last issue of the "Casket", Antigonish and we approve of every word this editorial contained.—Ed.)

"Princess Margaret has given a salutary shock to the world. In an era morally weakened by Hollywood's example of divorce and re-marrying she has chosen to be right with her conscience, her religious belief and the Commonwealth.

If she deeply loved Captain Peter Townsend, this is heroic—though certainly its counterpart is frequent enough in all levels of society. The annals of common mankind, as well as of heroes and heroines are filled with renunciation. But Princess Margaret, because of the highness of her office, has set a FAR TO BE NOTED example. It could be that she has set up again the ancient meaning of nobility and kingship: to be selfless, dedicated, and an example to the people.

Those newspapers which revel in the exploitation of sentimentality - founded-upon supposition she has left aghast. And, what is more important, her simple statement stands as a rebuke to some of our elected political leaders who think little of compromising moral principles even in the making of policy as between nations:

"Mindful of the Church's teaching that Christian marriage is indissoluble, and conscious of my duty to the Commonwealth, I have resolved to put these considerations before any others."

The Queen's sister declares, in effect, that she regards the Commonwealth as one held together by the Christain concept of values and her seal on that declaration is her renunciation these considerations before any others."

Margaret's influence will be great. Millions throughout the English-speaking Commonwealth will feel a deepened respect for the monarchy.

Vive la reine!"

Be Sure Before You Shoot!

Although the deer hunting season has recently started, already two hunters have been killed, two or three have been wounded, and goodness knows how many have been lost at one time or another since the season opened.

Getting lost, of course, is not too serious for it can happen to even experienced hunters but these hunters are not lost for long for they usually carry a Ocompass and are able to strike a course that will lead them to familiar territory. Those who cannot do this should hunt only in country with which they are familiar.

But, there seems to be absolutely no reason why hunters should be wounded or killed during the hunting season when statistics gathered over the years prove that rank carelessness with firearms appears to be the factor underlying the majority of the accidents.

Hunters can keep the remainder of the season an accident-free one if they will but follow the following rules for safe hunting which we secured from the office of G. W. I. Creighton, Deputy Minister of Lands and Forests. The rules are basically simple and elementary and their observation certainly will mean fewer hunting accidents and happier memories of hunting trips.

Here are the rules:

1. Treat every gun with the respect and care due a loaded gun.

2. Guns taken into a home, camp, or carried in a vehicle, should never be loaded. Make sure the ammunition has been unloaded.

3. Be sure the barrel of your gun is free of any obstruction.

4. Always carry your gun so that you can control the direction of its muzzle even if you should stumble.

5. Never point your gun at anything you do not want to shoot.

6. Never climb a tree or fence while carrying a loaded gun.

7. Do not shoot a bullet at a flat or hard surface, or the surface of water. If shooting at a target, make sure the backstop is adequate.

8. Alcohol and gun powder are a dangerous mixture. One drink may mean the difference between a pleasant trip and a fatality.

9. Wear bright clothing when hunting.

10. Be positively sure the target you are aiming at is Game and not human beings. To be sorry for your mistake after an accident has occurred does not help the injured person and will not restore a human life. BE SURE BEFORE YOU SHOOT

Mrs. Louise Brown of this place received a letter from our good friend, John J. Copland, of Grenville, Grenada, B.W.I., informing her that he and family escaped injury during the recent hurricane which struck Grenada, causing the loss in life of 115 persons and destroying considerable property of plantation owners on the island.

Mr. Copland in his letter informed Mrs. Brown, that the oldest living persons in Grenada had never seen the like, nor had their forebears related the like in their time.

Three churches were completely demolished and trees standing for over a hundred years were uprooted with half of the cocoa bean crop destroyed.

Mr. Copland said the help from outside the Island such as Red Cross and other help was gratefully received by the residents.

In ending his very welcome letter he remarked: "The Country is looking lovely again. We shall have to live carefully for some time."

He gave his best regards to all his old Arichat friends.

We were concerned about Mr. Copland and family after hearing about the hurricane, however, we are now relieved to know our good friend and family are safe and happy.

SPARKY SAYS

River Bourgeois

(Continued from Page 1)

Herman Burke, accompanied by Miss Kay MacEachern were recent visitors from Halifax, at the home of Herman's brother, Xavier and family of River Tillard. While here Herman visited the home of Mr. and Mrs. Hilary Morrison. His visit recalled old memories of the days he spent at the Brickery when all the Morrison family were at home and playing cards, and putting jig saw puzzles together, was the order of day. Happy days for everyone there.

A very enjoyable shower was held at the home of Mr. and Mrs. Vitus Burke, at River Tillard in honor of Miss Josephine Burke, who has since became the bride of Mrs. Burke's brother, Arthur. The room was tastefully decorated for the occasion and the Bride to be, received many many beautiful and useful gifts. A delicious lunch was then served and everyone returned home after spending a happy evening.

Mr. and Mrs. Archie Morrison have returned to Halifax, after motoring down to attend the Morrison-Burke nuptials.

———:o:———

Arriving home and finding himself locked out, he settled himself on the steps to wail for his wife's return. Considerable time passed and a neighbor, seeing his plight, invited him to dinner. The locked-out one politely refused. "If I get comfortable and fed," he explained, "I'll get all smoothed down—and I want t be good and mad when she gets here."—Reader's Digest.

After

After the night and the darkness,
After the sorrow and pain
Cometh a lovely tomorrow,
And all is delightful again.
After much grim apprehension,
Fearing of what may befall,
Cometh the sweet consolation
That God's way was right after all.

After frustration has robbed us.
After our plans went awry,
We shall one day know the reason,
And get the reply to our "Why."
After the lesson is finished,
After the prize is obtained,
We shall forget all the travail
In the knowledge of what we have gained.
