J. Clyde Nunn Returns to CJFX

Mr. Nunn, who pioneered the establishment of CJFX back in 1943 has been in the broadcasting industry for twenty-one years. In 1954 he was elected to the Nova Scotia Legislative Assembly as representative for Inverness County, and in June 1955, he was named Minister of Labour and Public Welfare in the Provincial government.

He is the past President of the Nova Scotia Amateur Baseball Association a past President of the Antigonish Board of Trade and a member of the Board of Governors of St. F. X. University. He is married to the former Nora MacKenna of Antigonish. They have four children.

The return of Mr. Nunn to CJFX will mean a further growth in the importance of this well established Maritime Broadcasting station. He has already announced that important changes in the program schedule will be forthcoming shortly. These changes will be designed to bring more enjoyment and to appeal in a special fashion to the varied tastes of the Radio Listner. In addition, a more complete coverage of local news is planned.

Mr. Nunn's radio characterization of "The Odd Timer" on the program "Fun at Five", will be returning to the air in the near future. Ample proof of the popularity of this program is found in the number of personalities who have adopted a similiar characterization in the broadcast industry.

Mr. Nunn's first official act in returning to radio was to address the annual banquet of the Atlantic Association of Broadcasters and Telecasters at Amherst recently.

Highland Culture

Nova Scotia's a land to warm the cockles of a Caledonian's heart— a braw, bricht province with sentimental appeal for the five million or more North Americans of Scottish ancestry.

More Gaelic is spoken in Nova Scotia than in the highlands of Scotland, they say. The name of the province is Latin for "New Scotland." There's even a lake here called Loch Lomond. In some communities, church services are conducted in Gaelic, as well as English, and some schools teach the Gaelic language. St., Ann's, Cape Breton, is the home of the only Gaelic college in America.

The perennial conclaves of Nova Scotia's Scots are among the most popular of the events the province stages to entertain its summer visitors.

First event this summer with a Scottish flavor will be the Gathering of the Clans and Fishermen's Regatta at Pugwash on Northumberland Strait. As is the custom, the Gathering will be held July 1, Dominion Day.

The Highland Games, Nova Scotia's counterpart of Scotland's Braemar Games, will take place July 16 and 17 at Antigonish. This is one of the few places where you can see a kilted Scot toss the caber, a test of strength in which brawny contestants see how far they can throw what looks—to the man of average muscle, anyway—like a telephone pole.

Last and biggest of Nova Scotia's summer festivals is the Gaelic Mod, August 6-11. Each year a Scottish chieftain comes to the Mod as guest of honor. This year it will be Lt.-Col. Donald Hamish Cameron of Lochiel, 26th chief of Clan Cameron, Achanacarry Castle, Scotland.

The emphasis at the Mod is on Scottish culture, rather than athletics. The six-day program will include concerts by pipe bands, a Gaelic play, a Scottish pageant and contests among pipers and dancers.

"BLUENOSE" PREPARING FOR SUMMER SERVICE

YARMOUTH, N. S.—The luxury ferry "Bluenose", operating between here and Bar Harbor, in Maine, has been on dry dock at Saint John, N. B., for propeller adjustments prior to entering daily summer service on June 22, officials of Canadian National Railways advise.

Last year the "Bluenose" trip proved extremely popular with summer tourists, and in the first year of operation the big ship carried more than 100,000 passengers and 29,000 motor vehicles.

SHORTS FROM THE TALKS

(The following interesting briefs, have been taken from talks given by prominent people, in talks over the British broadcasting Corporation's programs, from England.)

VENERABLE CHIEF

"There is a famous tortoise, claimed to have been left by Captain Kidd in 1777, that still lives in Tonga. This scorched— by a bush fire—and battered veteran resides in the Palace grounds and bears the title of Tui (High Chief) Malila and is said to be 'the greatest character, outside the Royal Family', in the islands. The animal is supposed to have been actually branded by Cook. In 1953 it was reported to be blind and that, when walking, it 'creaked like an ox-cart'. It was still alive last year. If, as seems probable, this venerable reptile (which is traditionally given a token portion at state banquets) is in fact one of the original pair left by Cook, it must be at least 180 years old."

Dr. A. J. Marshall, Reader in Zoology and Comparative Anatomy in the University of London, broadcasting in the BBC's Third Programme.

QUICK SERVICE

The remarkable feat of a man named Shuttleworth, who had a bakery at the Willaston Mill about a century ago, is still remembered in the village. Corn from a local field was cut and threshed in the early morning, ground at the Mill into flour, made into bread, baked and delivered in London the same night."

Norman Ellison, speaking about the old windmills in the Wirral peninsular in Cheshire, in the BBC programme "The Northcountryman."

Federal Minister Health and Welfare At St. Peter's, Liberal Meeting

On Saturday evening April 27, Hon. Paul Martin, Federal Minister of Health and Welfare, addressed a large and enthusiastic Liberal meeting at the Municipal Hall, St. Peter's, while on a tour of the Maritime Provinces.

The meeting was also addressed by the Federal Liberal Candidate, Allan J. Macachen and Earl W. Urquhart, M. L. A., both of whom gave a good account of their stewardship and were loudly cheered on entering the hall and during their addresses.

Bill Buchanan, the Federal candidate from North Sydney, who has represented the constituency of North Victoria for the past four years, accompanied Hon. Paul Martin, to St. Peters, and in his address praised the work of Mr. MacEachen, as the representative of Inverness-Richmond-Cape Breton West. Dr. Buchanan said that Mr. MacEachen was one of the ablest debaters in the House of Commons.

In a speech which touched on various aspects of the Government's hospital insurance plan, the Minister was repeatedly applauded by the large gathering.

"The Government's hospital insurance program," the Minister stated, "will save the people of the Maritimes millions of dollars a year on what they pay for hospitalization. It has been specifically designed to meet the problems of areas such as this. This is obvious from the fact that our Atlantic Provinces will receive from the federal treasury well over 50 per cent of the shareable costs of their hospital insurance programs."

"What it all adds up to is this: because of the generous nature of the federal offer, the people of this region simply cannot afford to be excluded from this program. For it means that their governments—for the first time in history—will be in a position to make available the kind of hospital care they need at a price they can afford to pay. And the same holds true in every part of Canada."

Mr. Martin referred to the fact that it was because of the action of a Maritime Province that work could now go ahead on the implementation of this great health project.

"In becoming the sixth province to accept the federal plan, Prince Edward Island has taken a step which will have profound effects not only for its own people but for Canadians all across the country."

"This is not the first time that the Maritimes have tempered a development of major nationwide importance," the Minister added.

He went on to comment that the six provinces now included in the plan are spread from one end of Canada, to the other. Newfoundland and Prince Edward Island in the east. Ontario in the centre, and Saskatchewan, Alberta and British Columbia in the west. In other words, this will be a truly national hospital insurance program as Prime Minister St. Laurent has insisted from the beginning."

HON. PAUL MARTIN, Q. C.
Minister of Health and Welfare

Referring to criticism which had been levelled at the Government for standing firm on its requirement that the scheme must include a majority of the provinces representing a majority of the Canadian people. Mr. Martin ventured the opinion that, if it had not been for this proviso, "we would not have achieved the progress we have today."

"The action taken by Canada's smallest province is an overwhelming vindication of the Government's policy in this connection," he added.

The Health Minister indicated that discussions are continuing with the remaining provinces, and expressed the hope that more will soon follow the lead of Prince Edward Island and the other five and join in this historic undertaking.

Mr. Martin wound up his remarks by characterizing the Government's hospital insurance plan as probably of greater significance to the people of Canada than any measure put forward by any government in this country at any time.

"Actions such as this surely give a hollow ring to charges that the Government of Prime Minister St. Laurent is "callously indifferent" to the needs and problems of Canadians. The people of Canada—be they in the East, the West or somewhere in between—know where the truth lies. And they will act on this knowledge come the tenth of June," the Minister concluded.

The Minister spoke in both English and French and held the rapt attention of his listeners throughout his address and was loudly cheered at the conclusion of his address.

Dundee Dew Drops

By A. F.

The late snowfalls and night frosts have kept us for a time, wondering as to when Spring would come. But the sudden changes in temperatures rising to 60 degrees for the past while has certainly made an impression on the fields and in the forests.

Green blades are beginning to show up through the brown turf and maples are red in bud amid forest green.

Spring is visible on the blue Bras d'Or where fishermen cast their nets for the first plump herring of the season, and on rivers and lakes where anglers, wade thigh deep to cast a line for the speckled beauties.

We are lulled to sleep each night by the music of the Frog Band, coming through an open window, and we awaken in the mornings to the song of the Robins and Chickadees in a nearby tree, and breathe in the aroma of growing things, as the sun's rays fall upon the forests and fields.

The brooks are running over in pastures where cattle drink their fill and browse around in the sun.

Yes, Spring is visible everywhere, in our homes and around our daily chores, as we prepare for happy holidays, and the home coming of family and friends.

We were pleased to hear that our good friend D.A.S. had made such a splendid recovery from his illness, suffered during the winter months and we trust that his "Echoes" will again, be heard from the "Sun-kissed Slopes".

Joe Ross, St. Peters who has been visiting with Mr. and Mrs. Bobbie Morrison, at St. George's Channel, accompanied Bobbie for a short visit here recently. We enjoyed the time spent with us and pleased to see Joe in such good spirits.

Mrs. Delbert MacRae, Grand Anse, who was a patient in Antigonish hospital, returned home recently, much improved.

Johnnie Hill, Louisburg, spent the week-end with his brother-in-law and sister, Mr. and Mrs. Dan MacRae, Dundee.

Charles Pottie, Dundee, was a recent business visitor to North Sydney.

A Great Tribute

* * * * * *

Only recently another great tribute was paid the memory of Jack Miner and the work his sons are carrying on when 33 United Nations delegates, comfy in Chrysler cars and with Chrysler chauffeurs, were taken to Kingsville, Ont., to see what a "Windsor Star" editorial called "The Wonder of the World." Not only did the three sons welcome them, but 3,000 geese flocked and honked a salute as the delegates alighted on the baseball diamond east of the Miner home, he visitors took part in banding some of these geese—a Jack Miner band on one leg, a United Nations band on the other.

* * * * *

Before leaving the grounds the 33 from the U.N. visited the tomb of Jack Miner, each in own fashion paid tribute to a man they had never met but a man whose fame has spread to their homelands in the Far East. That's the story old and fairly new. The story of the beloved naturalist who, with the possible exception of the legendary red coated Mountie stands in eyes around the globe as the No. 1 symbol of Canada.

—:O:—

From Boston

Mr. and Mrs. Wilson Forgeron, have arrived at their home in West Arichat, after spending the past month visiting members of their family at Braintree, Mass.

On their return they also visited members of their family at Halifax.

While in the U. S. A., Mr. and Forgeron visited Mrs. Joe Benoit, who resides with her daughter, Mrs. Margaret Forrest, of Cambridge, Mass. Mrs. Benoit recently celebrated her 92nd birthday and wishes to be remembered to all her old friends in West Arichat where she spent the greater part of her life. Beloved by all her Isle Madame friends she is always happy to see them when they visit in the U. S. A.

Mrs. Benoit has the distinction of being a great, great grandmother.

The Record is looking forward to reporting the grand old lady's birthday again next year, in the meantime we wish her every happiness and continued good health.

Announcing! The Royal Bank

PERSONAL CHEQUING ACCOUNT

the new thriftier way to pay personal bills by cheque

(AVAILABLE, JUNE 3)

If you now pay your personal and household bills by cheque, drawn against a Savings Account, then a PERSONAL CHEQUING ACCOUNT is tailor-made for you!

Here's how a PERSONAL CHEQUING ACCOUNT works.

When you operate a PERSONAL CHEQUING ACCOUNT, you use a special cheque book (containing 10 or 20 cheques—whichever you prefer) on which you pre-pay service charges at the new low rate of 10¢ a cheque. There are no other service charges of any kind!

No time is lost at the bank when you use a PERSONAL CHEQUING ACCOUNT, *because there is no passbook to write up.* Instead, you make your deposits using a special deposit slip, in duplicate, retaining the carbon copy.

We mail your cancelled cheques and a complete statement of deposits and withdrawals every three months. The cancelled cheques are proof that bills have been paid, and the up-to-date statement lets you know *exactly* how your personal finances stand.

Important: We recommend very strongly that you retain your present SAVINGS ACCOUNT on which you earn regular interest. A *Personal Chequing Account* is for *making payments by cheque*—A *Savings Account* is *for saving money!*
