NEWS OF THE LEGISLATURE

Released By Nova Scotia Press Bureau, Halifax

Legislation passed in the final moments before the sessions of the Legislative Assembly were progued Saturday morning established an absolute 60-mile-an-hour speed limit on provincial highways.

• • •

One hundred and forty bills were passed whilst the House was in session including those which would impose a sales tax to implement the hospital insurance plan; and to create a new method of providing insurance against uninsured drivers. The automobile insurance companies of Nova Scotia will take over the Unsatisfied Judgment Fund and operate it on the same payment terms as today. The only change will allow payment of damages in hit-and-run cases

• • •

A report prepared by the Arthur D. Little Inc., a U. S. consulting firm, prepared for the Department of Trade and Industry, and tabled by the department's minister, Hon. E. A. Manson, was based on interviews with over 1000 tourists visiting Nova Scotia two years ago. The study revealed that the tourist industry failed to supplement natural attractions with adequate facilities which might encourage the tourists to extend their stays or return for future visits. Lack of adequate accommodation along the Cabot Trail, the South Shore and Halifax area was mentioned.

• • •

Legislation introduced by Welfare Minister M. S. Leonard paved the way for government assistance in operation of county homes and in administration of poor relief. In the case of both county homes and relief to the needy the provincial government has offered to pay 16 and two thirds per cent in addition to the federal government's 50 per cent leaving one-third of such costs to be borne by the municipalities. The province would also share costs of administration of relief.

• • •

• • •

• • •

Legislation to increase the sessional indemnities of all members of the Legislature was introduced by Premier Stanfield, but there will be no salary increases, obove the indemnity charge, for the Premier or cabinet members.

Branch 150, Petit De Grat

By Chairman, Press Committee

The regular monthly meeting was held on May 1st of Branch 150, Canadian Legion, Petit de Grat, at which time it was decided to sponsor the "Mary Loretta Power Fund". Mary now residing at Robins, lost her legs in a train accident at Mulgrave some years ago. At the time of the accident she was given artificial limbs by the Red Cross but has now outgrown these. Cost of new limbs will be seven hundred dollars. At present there are three hundred dollars in the fund, one hundred and fifty dollars from previous fund and one hundred and fifty donated by Petit de Grat Parish. This is a very worthy cause and it is hoped that when legion members call for donations they will be favourably received.

Plans were formulated for a Picnic to be held July 1st, sponsored jointly by the Petit de Grat Home and School Association and the Legion.

(We are pleased to have the Petit de Grat Branch of the Canadian Legion report the happenings of their worthy Association. Richmond County Music Festival to Run for Four Days

(The following on the annual Richmond County Music Festival appeared in the Cape Breton Post, of Thursday, the 8th inst. We are some what disappointed that the publicity chairman for the Festival overlooked the Richmond County Record, by not sending us the announcement of the County Festival. We are always ready to publish such news in the interest of education in the columns of the "Record" and we want everyone to feel that your weekly newspaper is at your service.—Editor.)

Over 1,000 children will participate in the tenth annual Richmond County Festival of Music starting May 26 in St. Peter's. The unique festival, which is bilingual, runs four days in four different centres to save inconvenient transportation of children. The number of entrants has grown from 295 the first year to just about 1,000 this year.

Mrs. Paul White, who is convener for the Richmond County Council of Home and School Associations, said Wednesday that the name of the adjudicator would be announced later this week.

The Festival will move from St. Peter's to West Arichat and from there to Louisdale, closing at Petit de Grat. At many of the centres the French tongue of the Acadian people who make up 80 per cent of the county's population will predominate. English will be heard in others and in many, Latin, the tongue of the Catholic liturgy will be represented in offerings of numerous junior choirs whose fine work has long been a feature of this Festival. Perhaps even some of the county's hardy Scotsmen will get in a Gaelicentry to make it a multi-lingual affair.

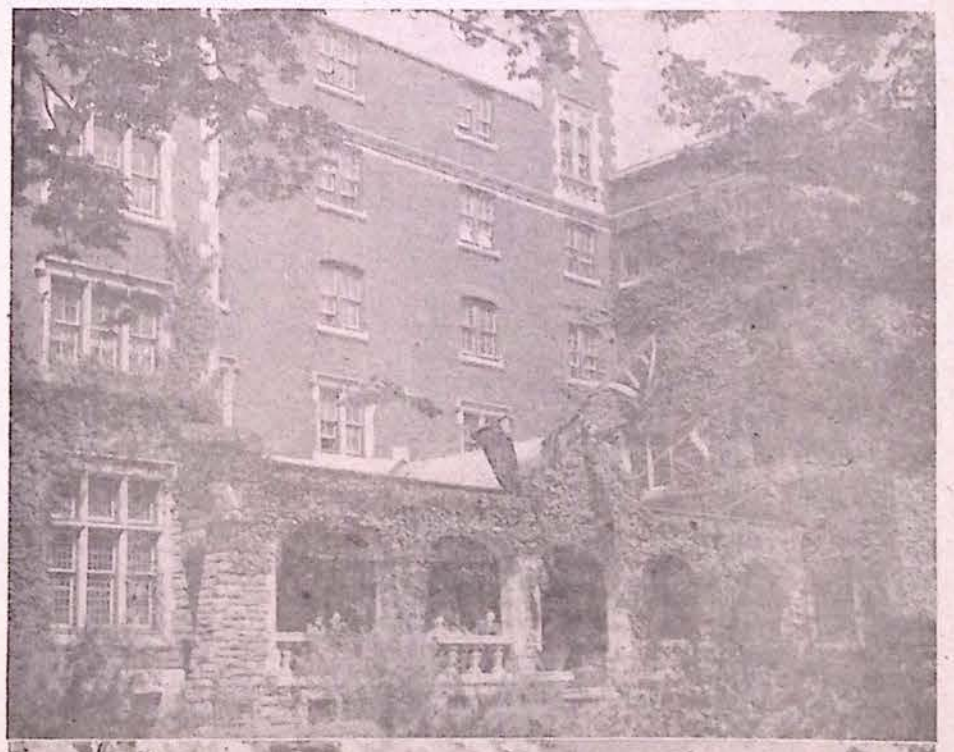

Members of the Home and School are now rounding out plans for their Festival which is one of the organization's chief projects and President M. A. McNeil and his executive have left nothing undone to make it a success.

L'ARDOISE C. W. L. HOLD ANNUAL MEETING

The annual meetng of the L'Ardoise sub-division of C. W. L., was held in the school, April 16th with a large attendance and Mrs. Joseph Gracie presiding.

The annual reports of the conveners of various committees were given and the plan adopted was a very informative one, namely — pasting the separate blankpages of the sub-division report form on the inside cover of a scribbler and distributing them to respective convener corresponding to her committee. This will make an excellent guide to hand on to her successor.

Our objective for the year of increasing our membership has been accomplished as twelve members were added to the list. We have had an attendance of about fifty per cent at all meetings.

Our financial record has not been outstanding but we feel much has been accomplished for the parish.

All officers were re-elected with the exception of the president whose term of office expired this year. The slate of officers are:—

President — Mrs. Raymond G. Samsaon.

1st vice President — Mrs. H. Burke.

2nd. vice. President — Mrs. Victor Martell.

3rd. vice. President—Miss Rose A. Monbouruette.

Secretary — Mrs. E. A. Martell

Treasurer — Mrs. A. J. Martell

The members observed the Feast of Our Lady of Good Council, April 26, by corporate Communion, recitation of the Rosary after Mass and a Mass for the living members.

Members were urged to take advantage of the subscription offer to the League Magazine and a large number are doing so.

The meeting closed with the recitation of the Act of Consecration.

K of C News

The regular monthly meeting of the Isle Madame Knights of Columbus Club, was held at the Arichat O. L. A. Convent Hall, on Sunday evening, April 27, 1958 commencing at 8 p. m., Chairman, J. H. LeBrun. The meeting opened with prayer by A. Doucet. The minutes of the the Club Chaplin, Rev. Father previous meetng were read and adopted after which reports were read by the various committees. Social and Entertainment reported the commencing of their big game at Caledonia Hall, Grand Anse on May 2nd. Civic Committee reported the sign for Martinique intersection was nearing completion and it was hoped would soon be erected.

Rev. Father C. Gerrior thanked the Club for their attendance at Holy Hour on Holy Thursday. He then suggested that the Club should seriously consider sponsoring a Little League Baseball League for Richmond County, after considerable discussion by a large number of hte members present it was decided that a committee of four be appointed to organize such a league and also to meet with the executive of the Senior Richmond County Baseball League.

Considerable discussion arose from a letter received from Miss C. Ameriault, R. N., County Health Nurse concerning the purchase of artificial limbs for the unfortunate Miss Loretta Power of Arichat Parish. Miss Power lost both of her legs several years ago in a train accident at Mulgrave, N. S. It was finally decided to let the Canadian Legion Branch 150 of Petit de Grat sponsor the drive for raising funds and a donation of $25 was made to assist the drive.

A donation of $10.00 was made to the Canadian Cancer Society. The meeting then adjourned with a prayer by Rev. Father Gerrior.

LOUISDALE, — — Cape Breton

A year ago, the life of this fine lobster was reprieved. Then small, he was thrown back into the sea—allowed to grow into a bigger, more profitable catch. By throwing back shorts, lobster fishermen are actively cooperating with the Department of Fisheries to conserve their own great industry.

The one that got away!

MANY LOBSTERS CAUGHT in the Atlantic fishing grounds go back into the sea. Some are small and are reprieved to grow in size and quality. Some are berried—egg-carrying lobsters—willingly surrendered to go back and multiply. During close seasons, no traps are laid. This keeps their numbers at a safe level to ensure good catches in future years.

By following these vital conservation methods, the lobster fishing community wholeheartedly cooperates with the Department of Fisheries and safeguards the prosperity of its industry and livelihood.

The annual market value of Canadian lobsters has been estimated at 15 million dollars. The Department of Fisheries and the lobster fishing industry are jointly concerned to preserve this important national asset.

Having served in the Preventive Service, of the Canadian Customs with Mr. Spray, at Gabarus, we recalled many amusing incidents of our experiences in the days when the Cape Breton coast was frequented by smugglers better known as rum runners and we believe we have to our credit one of the biggest seizures ever made on the coast in the fall of 1930.

It was nice seeing Jim and we were exceptionally pleased to learn that his health is now much improved.

THE ROSEFISH is found in abundance off Canada's east coast. The Department of Fisheries reports that exploratory fishing by the Fisheries Research Board of Canada indicates still greater stocks to the north.

A rose is a bream is a perch—

THE ROSEFISH is variously called Red Bream and Ocean Perch. By name it was, until recent years, of little or no commercial or food value. Today, however, as Ocean Perch, it is a big favourite of Canadian housewives and an important factor in the livelihood of many Canadian east coast fishermen.

Turning point in the importance of the rosefish came with advancements in fish freezing and handling. The rosefish were automatically scaled and filleted, then quick frozen and sent to market as Ocean Perch. Their mild flavour and relatively low price won them instant popularity.

At the same time the growth of *otter trawling* with huge, open-mouthed nets made the catching of rosefish in large quantities a commercial possibility.

The Fisheries Research Board of Canada, the Department's scientific arm, has discovered many of the important grounds which are being fished today and others still untapped. The rosefish typifies the role—one of many—that the Department plays in developing Canada's vast and valuable fish resources.
