500 Miles Of Paved Highways Built In Nova Scotia Since 1956

(Nova Scotia Press Bureau)

KENNETCOOK, Sept. 24 — When the present construction season concludes the Department of Highways will have completed more than 500 miles of new paving in Nova Scotia since the present government came into power in November, 1956, Minister of Highways G. I. Smith announced tonight.

Mr. Smith addressing the annual meeting of the Hants East Progressive Conservative Association held here today.

The 500 miles of paving, equal to that of paving a new road from Yarmouth to Cape North, represents a 25 per cent increase, in two years, in the total mileage of paved roads was just over 200.

HON. G. I. SMITH, Q. C.
Minister of Highways

Mr. Smith, in speaking of his department's efforts, said: "I would like to draw your attention to some things concerning the work of the Department of Highways in the last two years.

"By the end of this construction season we will have completed more than 500 miles of new paving since this Government took office. To indicate the magnitude of this effort let me tell you that this is the equivalent of paving a completely new road from Yarmouh to Cape North.

"When we took office the total mileage of hard surfaced roads in the province was just over 2000. Thus in two years we have increased the total paved mileage in the province by 25 per cent. To put it another way in two years we have paved one quarter as much mileage as was the total done in all the preceeding years. The same is true in the matter of bridges.

"All this, of course, costs a great deal of money. In two years we will have spent more than 25 million dollars on maintenance and something in the order of 30 millions of Capital funds. Of the Capital funds close to 26 million was raised in the Province. The other 4 million is made up of contributions by the federal government to the Trans Canada Highway program, the Roads to Resources program, and the road to the International Airport at Kelly Lake."

A Move In the right direction

(The following announcement of Hon. E. A. Manson, minister of trade and industry is one that should bring about better trade with the West Indies. We remember quite well when sailing ships out of the port of Arichat did a big trading business in the Carribean and today with modern freighters we have every reason to believe that the opening up of markets between Nova Scotia and the West Indies, should be of great imporatance to all and we look forward with interest to further developments.—Editor.)

***

HALIFAX, N. S., Sept. 25—Hon. E. A. Manson, minister of trade and industry, today announced the signing of a contract on behalf of the Province of Nova Scotia with the Canadian Government Exhibition Commission in Ottawa for booth space at the forthcoming Canadian Trade Fairs in Port of Spain, Trinidad and Kingston, Jamaica. Participating with the Province of Nova Scotia in this display will be exporters of fish and other food products, and possibly represtntation from the lumber industry.

With the establishment of the West Indies Federation, said Mr. Manson, the Canadian government is desirous of expanding trade with that area and this exhibition is one method of stimulating the interest of exporters and buyers.

"Nova Scotia has a long history with the West Indies," he said, "and the government feels that all possible should be done to increase the interest of Nova Scotia producers and exporters in the West Indies market. With this objective the exhibition space contracted for will provide an added assist to those with goods to sell and to those interested in exploring the market."

It is hoped a large representative group of Nova Scotia businessmen will visit the West Indies during fair time and Mr. Manson is prepared to personally visit the area if that would contribute to a greater degree of interest from Nova Scotia exporters or West Indies buyers.

ELECTION CARD

To the Electors of D strict No 11 County of Richmond

On Tuesday, October 21st of this year the Electors of District No. 11 will be asked to go to the Polls and elect a Councillor to represent them in the Municipal Council for the next three years.

I have been approached by several taxpayers in the District and asked to allow my name to be placed before you as a candidate in this election. After some consideration, I have decided to offer as a candidate, in this forthcoming Municipal Election, and through the medium of the Richmond County Record, I am asking for your support on Election day.

As most of you already know I have always taken a keen interest in the affairs of our community. I have never failed to support or take responsibility in any organization which meant good for the community as a whole. If you place your confidence in me on election day and elect me as your representative in the next Municipal Council, I can assure you, that I will discharge my duties to the best of my ability and will always strive to do what I think is best for the betterment of the taxpayer and the Municipality as a whole.

I have several years experience in the field of accounting and financial matters and I feel certain, that this knowledge will be valuable when such matters are being presented to Council, thus assuring the taxpayers of our District—a better representation in the financial matters of our Municipality.

Since the past few years our Municipal Government has become big business. It is therefore very important to the taxpayers of our District that the candidate whom they elect as their Councillor possesses the capabilities and experience in business to enable him to understand fully the procedure and financial problems which arise in our Municipal Government. It is with this experience, that I ask your support on Election Day.

In a Democratic Country, such as ours, every person whose name appears on the voting list is entitled to vote. I trust that all those eligible to vote in District No. 11, will take advantage of this privilege and will make a determined effort to go to the Polls on Election Day and cast their ballot and before doing so consider carefully the capabilities of the candidate asking for your support and vote for the one who in your better judgment will give you the best representation in the next Municipal Council.

Thanking you, in anticipation of your support on Election Day.

I remain,
Yours very sincerely,

Your Donation Will Help Make A Child Happy

The following story is typical of many others, which have been helped through the Children's Aid Society and you can help that Society further in their Social Work by your donation in the the present campaign. Show your love by giving!

I can still remember a feeling of complete loss, on the day the Social Worker ushered my three sisters and myself up the stairs of the "orphanage". Although we all knew we would be in the institution for a few months only, until mother was well and able to care for us again, it did not help to overcome the complete depression I then experienced.

The first day in our new home was certainly an eye-opener. Much to our surprise, we found many girls our own age, playing and laughing together, and before the day was out, we, too, had become members of this big happy family. Adjustment came quickly and this new experience did a lot to impress in my mind forever, just how lucky my family was.

I recall now, with admiration, my "orphanage friends" who were not as fortunate as myself, who could not claim a mother and father of their own, or a feeling of parential affection. To us, who can count on this everyday, it is not unusual, but to a child who is not endowed with it, it becomes something big and very, very important both in their present life and their future.

Your contributions enable the Children's Aid Society to provide this natural home setting for Cape Breton Children under their care. Will you deprive a child of love, affection, and a chance for real happiness? or will you support your Children's Aid Society during it's annual campaign for funds.
