The Royal Limousine--A Cadillac

OTTAWA June 12—An air conditioned Cadillac limousine with a detachable plexiglass "bubble" over the rear seats for use by Queen Elizabeth and The Prince Philip during their Canadian tour was today placed at the disposal of the Royal Tour Committee by General Motors of Canada.

The car features a maximum of comfort, convenience and luxury for the passengers with the greatest possible outside-inside visibility for the millions who will line the coast to coast parade routes.

The upper portion of the rear quarter panel has been removed, from the rear door post on back. It has been replaced with a removable plexiglass canopy that will permit onlookers the opportunity to view the Royal procession even if the weather fails to co-operate. It is anticipated that in most parade points the car will operate with the canopy removed in the true landau concept.

The roof is still further modified with the addition of a 24-inch by 43-inch sliding panel. Electrically operated, the roof panel can be opened or closed from both the rear and front compartments.

The Royal shield is mounted on the leading edge of the roof, centered above the windshield. A special mast will fly the Royal standard.

Individually powered rear seats are installed with controls for the horizontal and vertical movement located on the individual arm rests. (This marks the first time that an automobile has been built with four-way power rear seat.) The seats are tailored in McLaughlin Carriage cloth in a distinctive square biscuit and button design. The floor is carpeted with luxurious mouton which extends up the doors.

To provide an even greater measure of air conditioned comfort, two additional outlets are installed in the rear compartment. The two new air conditioned outlets are on the back of the front seat.

Other special appointments include mouton covered hassocks, a lap robe carrying a hand embroidered crest of the Royal household and special lights illuminate the Royal Couple during after-dark processions.

The dimensional specifications of the Queen's landau limousine remain the same as on other Cadillac Series Seventy - Five Limousines. It has an over-all length of 244.8 inches and the width is 80.2 inches.

In order to keep up with the Royal Couple, who will fly between many points in the tour, the car will be loaded into an RCAF C-119 Flying Boxcar and transported to the next stopping point at which it is needed.

Unique C.N.R. Excursion This Snmmer

MONCTON—Two Canadian National Railways vacation excursions which each year attract hundreds of holiday travellers are promising to be exteremly popular again this summer.

These vacations on wheels, offered at specially reduced fares, bring Canadians now living in western Canada to their native Atlantic seaboard home cities and towns, and take westerners now residing in the Atlantic Provinces to their birthplaces on the prairies and Pacific coast.

The eastbound and westbound trips are organized by Edmonton, Alta., business man and former Maritimer J. V. Dodds, who says reservations are still being received for both fun-filled excursions.

The nationally famed Bluenose Special, which made its first eastward trip to the Maritimes in 1948, leaves Vancouver July 10 this year. It will arrive at Halifax July 16, after detraining along the way passengers bound for points in New Brunswick, Prince Edward Island, Nova Scotia and Newfoundland.

The westward trip to Winnipeg, Regina, Saskatoon, Edmonton, Calgary, Vancouver and Victoria leaves Halifax July 14 as the SNR Overlander. Returning, this special train leaves Vancouver July 29, arriving at Halifax August 4. This year marks the eight anniversary of this unique excursion.

VIVIAN LATIMER 1959 QUEEN OF BOSTON UNI.

We were delighted to hear recently that Vivian Latimer, the pretty daughter of Mr. and Mrs. Linwood Latimer, (nee Florence Dunphy), of Watertown, Mass., was chosen Queen for 1959 of Boston University.

We thank Vincent Power, a native of Arichat, for so kindly sending us the pictorial section of the "Boston Sunday Herald", showing a photo of Vivian at the crowning ceremoney, which was performed by Jo Barnum, a professional skater.

The Hearld had the following to say about the Queen:—

"VIVIAN LATIMER, a Nova Scotia native, won out over 16 other contestants entered by university organizations. She is a geology major at the College of Liberal Arts and has post graduate ambitions of being a high school teacher. The five-foot six-inch miss lives in Watertown. Other Massachusetts entries were: Denise Bradshaw, Boston; Dee Getchell, Rowley; Ronda Kramer, Worcester; Lucille Magliozzi, Arlington; Sara Selansky, Dorchester; Joyce Swenson, Medford; Claire Wenstein, Brookline."

Benoit of Arichat, past inspector of schools for Richmond County, presented the Home and School Charter to Mrs. Eugene Marchand, first president of the Association. This charter will in September be presented by Mrs. Eugene Marchand to our newly elected president, Mrs. Blair Ross. Mrs. Marchand graciously thanked the members for the invitation and the honor bestowed upon her. She expressed her joy at seeing so many familiar faces.

A PRAYER

If I have faltered more or less
In my great task of happiness;
If I have moved among my race
And show no glorious morning face,

If beams from happy human eyes
Have moved me not; if morning skies,
Books, and my food, summer rain
Knocked on my sullen heart in vain,

Lord, Thy most pointed pleasure take,
And stab my spirit broad awake.

A CAR FOR A QUEEN

Little Ann Turnes admires the rear compartment of the Cadillac Fleetwood Sedan which has been adapted and specially fitted for the Royal Tour of Queen Elizabeth and Prince Philip. Two individually powered rear seats, upholstered in silver grey McLaughlin Carriage cloth, are features of the rear compartment of the car. Matching cushions and a lap rug of the same material — the latter carrying the Royal Crest embroidered in red gold — as well as grey mouton floor covering and individual hassocks, complete the decor of the rear compartment. The car is also specially equipped with twin air conditioning units, powered sliding sunshine roof panel and a remote control radio knob at the Queen's right hand. Shown top, left, is a rear view of the exterior of the Royal Cadillac, which illustrates the detachable bubble of optically perfect plexiglass. It can be removed or installed in minutes. Lower left shows the car emerging from one of the RCAF's C-119 "Flying Boxcars" which will transport it to many Canadian points and to Chicago during the Royal Tour.

We extend our sincere sympathy to the bereaved widow and family in their sad bereavement.

Angus Ferguson

(We are most grateful to a St. Peters correspondent who sent us the following obituary in memory to the late Angus Ferguson, one of St. Peters oldest and highly regarded citizens, who departed this life on April 20th. To the bereaved widow and family we extend our sympathy.—Ed.)

ST. PETER'S —Angus Ferguson, highly respected and esteemed citizen of this town, passed away at the age of 94 years, at St. Anne Hospital, Arichat, on April 20th following a brief illness. The late Mr. Ferguson despite his advanced years was active and just prior to his passing had, with his wife flown to Halifax to visit his son and daughter-in-law, Mr. and Mrs. Malcolm Ferguson in that city.

Mr. Ferguson was for many years in the trucking and coal business in St. Peters and always took a keen interest in his church and community affairs.

Born in St. Esprit, he moved to St. Peters many years ago. He was a devout member of St. Peters United Church from which his largely attended funeral took place.

The late Mr. Ferguson is survived by his wife, the former Effie Strachan; one daughter, Mrs. Alister MacRae of Sydney; three sons: John with the R. C. A. F., Moncton; Malcolm of Halifax and Roy of Westmount. A son Raymond predeceased him some years ago.

To the bereaved wife and family we exend our heartfelt sympathy in the loss of a loving husband and father.

FISH LANDINGS

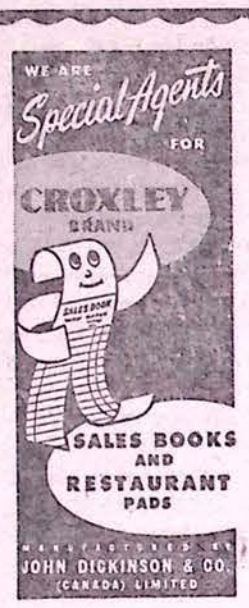

The fish landings recorded in the Maritimes during the month of March amounted to 23.4 million lbs. valued at $1.5 million, the Department of Fisheries and the Dominion Bureau of Statistics announced April 10th. These landings have reproduced a seasonal February-March increase in landings although at a lower level than in 1958.

The net increase in recorded landings from February to March was 11.4 million lbs. representing an increase in value of $632 thousand. Cod, haddock, and flatfishes' landings showed a combined increase of 7.7 million lbs, over those of February. Herring landings were up by 3.4 million lbs., all of which were landed in the Bay of Fundy area of New Brunswick. The only species showing any substantial decrease in landings from February to March was smelts which dropped by .5 million to .1 million lbs.

The March, 1959 landings stood at 8.5 million lbs. and $.5 million for the same month a year ago, below the landings and values continuing the lower level of landings which occurred in February of this year. Groundfish and shell both demonstrated declines from March, 1958. Pelagic up in March of this year by about and estuarial fish landings were 1.3 million lbs. accounted for principally by herring. The lower landings of shell fish, a decline of .6 million lbs., occurred mainly in lobsters and can be attributed to both bad weather and a scarcity of fish which has persisted since last year.

The recorded cumulative landings to the end of March for the Maritimes were 19.2 million lbs. below those of the same period in 1958, with a decline in value of $9 million. The only group showing an increase was pelagic and estuarial fish which were, to the end of March, 3.4 million lbs. above landings for the equivalent period in 1958. Groundish landings were down by 9.2 million and shell fish by 6 million lbs. The values for these species declined in value relative to the decrease in landings reflects the strengthening of prices which accompanied the smaller fish landings.

SOMETHING TO BLOW ABOUT—Playing it cool seems to be paying off for Phil Nimmons, one of Canada's top progressive-pazz players. He and his group have had their CBC radio engagements increased; they are now on the air once a week. Phil and his nine sidemen are now heard each Tuesday night in Nimmons 'N' Nine, a program of cool music broadcast live from Toronto on the Trans-Canada network. It is their third season on radio.
