Do You Remember When?

(By Old Timer)

The Robins estabishment was in full swing on the South Side of Arichat Harbour? The pier with deep water, the dwelling house for the staff, the store stocking everythng from a needle to an anchor, the storage sheds for both fish and salt, the packing shed the forge, the cooper shop, the cookhouse, the barn and the fish flakes on the flats above the plant.

The fleet of ships arriving from Jersey in the spring with the staff, their families and all types of commodities, sailing with dry fish for the West Indies, returning loaded with salt and sailing back to Jersey in the fall leaving only a skeleton staff to care for the buildings?

The fish you sold and your labor were "put on the books"? You bought your winter's supply of staples—flour, sugar, beans, molasses, tea, etc.—and generally you were still in debt to the store when the next spring rolled around?

Fish were bought by the quintal?

Board-like dry fish was pressed in tubs by hand screws?

Workmen were paid 50c to 60c for a 10 to 12 hour day?

Lobsters sold for 1c each irrespective of size and the returns from a boatload were needed to pay for a barrel of flour?

Ships carrying dry fish to the West Indies were lined with large sheets of birch bark to prevent moisture in the holds?

Birch bark was used instead of tar paper (not known then) under shingles? If you are interested there are at least two places where you can still see this method of insulation—the old Phalen building below Mrs. Madden's and the old backsmith shop next to the A. D. Sampson store where H. Hull is now living.

Every fisherman salted his own fish—herring, mackerel, cod, haddock, pollock—and a flake yard was a necessity?

Every fsherman boated his own fish to the plant in the fall?

Everyone searched for "eye stones" when West Indies ballast was unloaded? Incidentally I have one of those in my possession. Are there any others in the vicinity?

DO YOU REMEMBER WHEN?

I would be pleased to hear from the other old timers. Stories, tall tales, memories, old pictures that can be identified, etc. Simply address to "The Old Timer", care of "The Richmond Record."

PETIT DeGRAT, C. B.

The big guns of the LArdoise Ramblers were silenced Sunday, Sept 19, when on their home diamond, Red Caps, behind their young pitching sensation Wilfred (Lopat) Boudreau the overpowered Ramblers and went on to defeat them by a score of 5-2 in the last game of the finals for the Richmond County Baseball Title.

It was bang up ball all the way out. With the score tied 2-2 in the 6th inning starry short stop Ludger Boudreau singled and when veteran Claude Boudreau landed one over the fence their ammunition was gone.

Flashy fielding by manager Rudolphe Boudreau, Claude, Stan Benoit and Alzear Marchand and outfielders Peter Boudreau, David Gordon, Vernon Boudreau and Gerrard Boudreau did the trick in holding them at bay. An insurance marker faded their last hopes when Gerrard Boudreau singled and Ludger Boudreau doubled to drive home the 5th run.

A similar situation happened the previous Sunday at L'Ardoise when a young pitcher Vernon Boudreau handed them a 4-2 defeat altho in this one he was helped by Claude Boudreau.

The largest crowd ever to witness a game here showed their almost unanimous approval of the class of baseball players during this last game.

After the victory the Red Caps Manager Mr Rudolph Boudreau was presented with a handsome Trophy donated by Local 109, Fisheries Workers Union and presented by their President, Mr. Vincent Boudreau. Mr. Manager thanked them for their thoughtfulness and assured all his players that he was accepting it as a token of appreciation for the wonderful work they had done for him.

Mention must also be made of other players who although did not participate in the last game but were some of the stalwarts during the regular season such as Bernard Fougere, D'Assise Landry, Leon Samson, Leo Marchand, Arthur Samson, Phil Boudreau, Alex Fougere, Omer Boudreau and Alcide Boudreau. All players are to be congratulated for their fine effort during the baseball season. It is believed they have the highest batting average of any team in the League and also the most runs batted in.

Much credit also goes to Mrs. Gwen Boudreau the efficient Secretary-Treasurer of the Club, and Mr. Louis Samson the President and all those who aided in making it a financial success.

Fire Takes Big Toll Life and Property

There is nothing more destructive of life and property than fire and here in Canada the loss increases every year, in spite of the most energetic efforts on the part of Fire Marshals and their Departments.

During 1958 there were more fires, more lives lost, more property destroped and more jobs lost than ever before! There were 86,502 fires, 529 lives lost, and $116 Million worth of property destroyed and more jobs Scotia there were well over 2,000 fires. 33 persons were burned to death, of whom 22 were children. Property damage amounted to $3,714,389. So far this year we have exceeded the total killed during 1958. 37 people died from fire causes—and here again the significant fact is that of this total 22 were chidren.

This indeed is the most tragic factor in the whole sorry story: it's the children and our helpless old people who are the chief victims. This tragic fact is a clear indication of the main factor in causing this awful loss Human carelessness. Indeed, an analysis of the causes of these fires indicate that 90% were caused by neglect of the simple rules of fire safety and commonsense.

No responsibile parent or guardian should leave chidren or the infirm unattended for a single minute.

The personal factor is of course a most important element in fire prevention — and ignorance of elementary facts can often mean disaster. For instance one old lady was recently heard to remark: "I bought 30 amp. fuses because they are twice as strong as the 15 amp. fuses and cost just the same." She was unaware of the fact that the "weaker 15 amp. size" is the only safe

Scott Company To Join Stora At Point Tupper

More good news has been announced that Stora Kopperberg of Sweden and Scott Paper of Chester, Penn., would be joint owners of Nova Scotia Pulp Ltd., was came known recently by Carl Clauson, President of the new company. The common shares are to be held 80 per cent by Stora an 20 per cent by Scott. It is expected the arrangement will prove of mutual benefit to both companies. Nova Scotia Pulp Company began construction in July on a new Pulp Mill on a site at Point Tupper Richmond County. Some products from the Canso Strait Mill could be sold to the Scott operation in Pennsylvania. The Mill is scheduled for completion in 1962. When it is in operation, the Mill will have a capacity of 350 tons of bleached sulphite pulp per day.

The firm of Charles T. Main Inc., Boston, has been engaged as consulting engineers for the project. Construction Supervisor for Main is Jim Akerly who has wide experience in this field.

It is anticipated that in the

WEDDING

NEWMAN — PACKER

The Rev. H. Y. Kennedy officiated at a double ring ceremony in St. Luke's Church when Elizabeth Margaret Packer became the bride of William John Newman in a lovely setting of pink and white gladioli.

The bride is the daughter of Mr and Mrs G. S. Packer of Martinique, Nova Scotia, and the groom is the son of Mr. and Mrs B. Newman of Sarnia, Ontario.

Soloist Mrs. Keith Tully sang The Lord's Prayer and the Ave Maria accompanied by Mrs Penwarden at the church organ.

Escorted down the aisle on the arm of her brother, the bride wore a ballerina-length gown of sheer nylon over taffeta embroid ered with sequin braid and fashioned with lilypoint sleeves and straight neckline extending to a V-back from which streamers fell softly to the hemline over the full skirt of fold upon fold of nylon festooned with re-embroidered appliques. Her shoulder-length veil of imported silk illusion was secured by a sequined headpiece and she carried a cascade of red roses and fern.

Attending the bride were Miss Connie Williams as maid of honor and bridesmaids Miss Ethel Russell and Mrs. Lloyd Packer. All attendants wore ballerina-length gowns of mint green organza over taffeta fashioned with boat necklines extending to V-backs, short full sleeves and full skirts and they carried bouquets of white carnations and fern centered with flowers tinted to match their costumes.

Eud Newman attended his brother as best man. Ushers were Don Packer, brother of the bride and Ron Booth.

For travelling to the United States on their wedding trip the bride wore a red wool two-piece suit with black feathered hat and black accessories and a white orchid corsage.

On their return Mr. and Mrs Newman will take up residence in Sarnia, Ont.

The Record joins with the many friends of the young couple in wishing them every happiness throughout their wedded life.

THE BURNING QUESTION

WHAT CAUSES THE FIRES THAT MEAN THE LOSS OF SO MANY LIVES, JOBS AND HOMES?

Last year 33 people were burned to death — of whom 22 were children.

This year 37 people were lost by the end of August — of whom 22 were children.

There were 2,141 fires last year, with property damage amounting to $3,714,389 — with thousands of dollars lost in wages.

THERE ARE A DOZEN REASONS FOR THESE FIRES

—AND THEY ARE THE SAME YEAR AFTER YEAR!

CHECK THESE FIRE HAZARDS NOW!

Remove papers, rubbish, oily rags from attics, basements, closets and never let them accumulate again.

Have your chimney, stovepipes and heating system cleaned every year.

Never use frayed, knitted or worn electric cords.

Never hang clothes over a stove.

Protect floors, walls, ceilings from overheating of stoves, furnaces and pipes.

Keep grounds free of dead grass, weeds, trash and brush.

Keep home tools, machinery, motors, appliances serviced and clean.

Keep matches in a metal container out of the reach of children.

Put ashes in metal containers only.

Have your roof covered with fire retardant material

Use 15 amp. fuses where indicated.

Never use kerosene to start fires.

Just Another Fire

What is your reaction when you read of or hear about the lateset fire in our own area. Do you shrug it off with the thought, "Just Another Fire?"

The next fire might well affect you vitally in your own home circle. But have you made any serious effort to minimize the risk of fire in your own home?

Until you and I and all of us—yes, all of us—make that so essential effort, those disastrous fires will continue to destroy, to kll, and to maim.

In Arichat and infact throughout the whole County very little if any fire protection, outside that given by the Ranger and his sub-rangers can be called upon in the case of a fire in any of our villages and towns.

It becomes more urgent in these localities that precaution be taken by everyone to guard against the danger of fire by following every safety rule in your home, places of business, in the school and in halls.

Let us make a start this Fire Prevention Week to guard the safety of yourself and for all those you hold dear.

one.

Another old lady remarked that "Fuses you buy today aren't as good as they used to be 10 years ago. They keep blowing out." The answer is that she is probably using many more electrical appliances than she did 10 years ago, on the same wiring.

Our slogan continues to be DON'T GIVE FIRE A PLACE TO START—and it's up to every one of us to keep this in mind every day of the year. Don't let paper and trash accumulate. Have your chimney and heating system cleaned every year. Keep matches out of the reach of children. Never, under any circumstances, use kerosene or gasoline to start a fire. Luet us always remember the danger of fire.

Remembering the tragic fate of so many children and the old people who depend on us to safeguard them—let us make a silent vow NEVER to leave our children or our old people unattended. In the event of fire our first concern must always be to see that everyone s OUT of the bulding.

IS A MIDSHIPMAN A SAILOR?

Not if he's a fish of that name. The fish known as a midshipman is common on Canada's Pacific coast. It has a broad, flat head, widely separable eyes that can be protruded, and numerous rows of photophores or "buttons." It is sometimes called the toadfish because of these photophores. It is also known as the singing fish because of the loud humming sound caused by the vibration of its air bladder.

Mr. Dickie recently retired as an employee of the Maritime Telephone Company, after many years of faithful service in different parts of the province. For the past 30 years he was in charge of maintenance in the Springhill area. May he enjoy his retirement to the fullest.

Friends in Cape Breton are always glad to see the genial couple.

WEDDING

SAMSON — LeBLANC

Notre Dame de l'Assumption Church, Arichat, was the scene of a late summer wedding when Edna Marie daughter of Mr. and Mrs. Edward LeBlanc, Arichat was united in marriage to Venard Joseph, son of Mr. and Mrs. Arthur Samson, Petit de Grat.

The double-ring ceremony was performed by Rev A. P. Poirier, P.P.. The altar was beautifully decorated with red roses.

The bride given in marriage by her father wore a ballerina-length gown of genuine chantilly lace over net and taffeta, fashioned on princess lines with neckline embroidered with sequins and pearls. A coronet of sequins and pearls held her illusion net veil and she carried a crescent of pink carnations.

Bridesmaids were Nancy LeBlanc, sister of the bride and Jacqueline Samson sister of the groom. Supporting the groom were Aurel Vigneau and Alfred Martell, Samson's Cove.

Following the ceremony breakfast was served at the home of the groom. They motored to Sydney for supper then returned to the home of the bride where a reception was held.

We wish the young couple a long and happy wedded life.

Scott Company Joins Stora

(Continued from Page 1)

near future a Board of Directors will be named and will include the name of at least one Nova Scotian.

The Company has been licensed to use the revolutionary new two-stage pulping and liquor recovery process developed by Stora. Another important asset is a long term forest management license covering more than 1,200,000 acres of crown forest lands in Nova Scotia.

Walter Holland, who has been elected vice-president and general manager of the Company, will be in charge of the construction of the mill and will assume responsibility for its operation upon completion.

*****

WIDE INTERESTS

Stora is a Swedish enterprise which has been in continuous operation for more than 600 years and is one of the most mportant factors in the economic life of Sweden. It is prominent in the fieds of pulp and newsprint in addition to mining and metals, chemicals, electrical power and agricultural products.

Scott Paper Company, a leading manufacturer of sanitary and other paper products, operates pulp and paper mills in the United States. In addition, Scott has interests in paper companies in Canada, Mexico, England, Belgium, Colombia and Australia."

*****

MOVE WELCOMED

Scott Paper Company is the biggest U. S. operator in the field. Premier Stanfield said the project, while strongly backed before, was in an even stronger position with Scott moving in as part owners. Scott controls over 350,000 acres of timberand in the province, following recent merger with Hollingworth and Whitney firm. Stora Kopperberg would draw from about a million acres of Crown land under agreement with the Provincial Government. Mersey Bowaters holdings are in the vicinity of half a million acres.

Premier Stanfield said there was no indication if the Scott timber would be used in the Canso output.

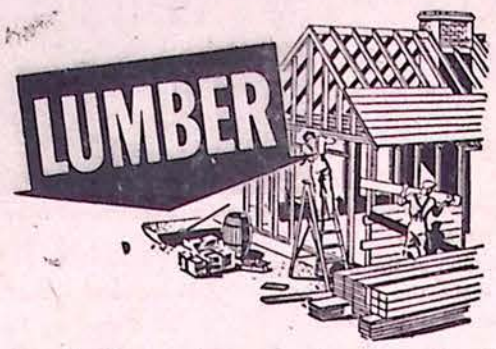

Opposition Leader Hicks said Scott's entry was a sound one for the province "but the effects of the merger as to allocation of the timber limits agreement should be carefully studied by the government.

Scott Paper Company timber holdings are chiefly in Colchester, Cumberland, Pictou counties and western Nova Scotia.

The company also owns a 100-acre site bordering Pictou Harbor.

LIME

AN AID TO BETTER FARMING

Lime can make all the difference between a bumper crop and a poor one. What might have been a wretched crop of poor quality hay without lime, could be, with lime, an excellent crop running as high as 4 tons to the acre.

A SOUND INVESTMENT

Blast Lime: $1.50 per tor
Ground Limestone: $2.50 per ton.
in bulk carlots, delivered to your nearest railway siding. Transportation assistance on truck lots.
Good farmers find that lime is providing an investment return of about $19. for every dollar spent on lime!

ORDER NOW!

It is a good plan to spread your lime on sod land to be ploughed in the period imme diately after harvesting. Nova Scotia's soils are sour, and need lime. The Department strongly advises you to order your lime NOW—to be sure of your best crop next year.

For information about the use and handling of lime, contact your local Agricultural Representative.

For the land's sake—use lime
