Do You Remember When?

(By Old Timer)

Units of the French Navy were always present in the harbour to help celebrate Assumption Day, on 15 August?

The cannon at the foot of Church Lane boomed a welcome?

The colorful French sailors paraded to the R. C. Church for morning services?

Those lucky enough to be invited aboard the ships were served the choicest of French wines?

And speaking of Assumption Day. Do you remember when Sir Wilfred Laurier, then Prime Minister of Canada, addressed a mass gathering on the convent grounds on such an afternoon?

Continuing the shipping registry:—

Construction of Pulp Mill To Start Early Next Spring

Project Boss Will Lessard of Charles T. Main Engineering Consultants in Boston, spoke to a meeting of the Town Council and Board of Trade at Port Hawkesbury and said that construction of the new mill at Point Tupper would start in March 1960. Mr. Lesser is a director of Charles T. Main, who have been retained by Nova Scotia Pulp to build the mill. Nova Scotia Pulp Ltd., is owned jointly by Stora Kopperberg of Sweden and Scott Paper of the U. S. A.

Work of clearing the site at Point Tupper is going on in full swing and should be completed within a few weeks. Winter will prevent a continuance of this work until March of next spring. Engineers and draughtsmen are preparing plans which should be available when actual building starts in the spring. We understand that several hundred blueprints will be required for the project.

*****

600 TO 700 MEN

By spring workmen will have swarmed into the area to make up one of the biggest construction jobs ever undertaken in the province. Although no official figures were available, it is estimated that when construction is at its peak, between 600 and 700 men will be employed. Most of the manpower will be drawn from areas close to the site. Materials too, insofar as it is possible, will be purchased in Canada.

Many outside men required for the job will no doubt create a housing problem. Mr. Lessard expressed hope that communities nearby will co-operate in providing accommodations where possible. On some jobs, he said, we have had to commute from as far away as sixty and seventy-five miles. If necessary they are prepared to travel some considerable distance for this particular project. The company, he pointed out, is anxious to avoid use of a Construction Camp.

* * *

DOCK FIRST

An L-shapel dock extending 400 feet into the Strait of Canso and 400 feet at the outer end will be the first project to receive attention by builders in the spring. It is hoped that by next September, the concrete and structual steel phases of the giant project will have reached their peak. This will mean that work at a stepped-up pace will continue indoors during the winter of 1960-61. The builders have set early 1962 as a target date for completion of the Mill. It is anticipated that it will go into operation immediately, employing in the vicinity of 1200 men.

Mr. Lessard told the meeting that when completed, the Mill will be the finest of its kind in the world. He speculated that experts will come from all over the world to see the plant and its unique process in operation.

Mines Minister Manson Announces Option On Zinc Deposits

HON. E. A. MANSON
Minister of Mines and Industry
Province of Nova Scotia

A new and promising zinc discovery in Inverness County has been optioned by Conwest Exploration Company Limited of Toronto, Hon E. A. Manson, Minister of Mines for Nova Scotia has announced.

Mr. Manson said the option was obtained by the company from Dr. B. J. Keating of Antigonish and covers an area of four square miles at Lime Hill on the western shore of West Bay, Bras d'Or Lake.

Dr. J. P. Nowlan, Deputy Minister of Mines, said the property is held under prospecting license issued by the Nova Scotia Department of Mines and includes 64 mining claims.

The discovery was made by Dr. Keating and Hugh D. MacGillivary of Antigonish and Gerald Logan of Upper Musquodobit.

The initial discovery was made on McCuish Brook near its source while the men were following up geochemical indications.

Preliminary trenching disclosed a north-south striking zone in crystalline limestone, containing sphalerite with suborinate associated pyrrhotite.

Two other similar showings have been uncovered both east and west of the original. Soil sampling indicates the possibility of other mineralized zones.

The geology is similar to that of the zinc deposits at Meat Cove on the northern tip of Cape Breton Island where the Mineral Exploration Company did underground work several years ago.

Dr. Nowland said Conwest now is starting to determine the quantity of zinc in the Lime Hill area. Diamond drilling prospecting and geophysical surveying are underway.

FERRY SERVICE FOR STRAIT OF CANSO MAY BE REOPENED

Rumors of the re-opening of a Ferry Service between the Strait towns of Port Hawkesbury and Mulgrave to serve these towns by direct water route, would be greatly welcomed by the residents in that area. if such a service were established. At present it is over a ten-mile trip via the Causeway.

No doubt this would only be a passenger service and would enable residents an opportunity to make fast connections to the Pulp Mill site at Point Tupper where employment will be in full swing next spring and will be of greater service after the completion of the Mill.

No doubt a further announcement will be made at a later date in regard to this proposed service.

Hicker Returning To Cape Breton

"Amazed At Goodness of People"

Peterborough, Ont. — The following (CP Report appeared in the daily press: "Albert John Strange, 58, a bearded Maritimer from Grand Anse, N. S., left his Cape Breton home last March 30 with a battered Bible, a letter of introduction from his local member of the Nova Scotia legislature, and without a cent in his pocket.

His mission: To treak across the Dominion from sea to sea.

Mr. Strange, a self-styled phrenologist, graphologist and student of nature, says he ha been sent to speak goodwill by a angel he saw in a vision.

Last Friday, after six month of continuous travelling he arrived in this city, called on Mayo D. A. Loucks and visited Mr. a Mrs. H. T. Mullard, friends o some people he said he met in North Bay.

Now on his way back home after his 3,800-mile trip from Cape Breton to Vancouver, Mr. Strange said in an interview:

* * *

AMAZED AT GOODNESS

"I was amazed at the goodness of people. I never had to hitch a lift. They just stopped, and the most I walked in any one day was 25 miles.

"I have tried to stimulate goodwill wherever I have gone. And because of the gracious manner in which Cape Breton has used me over the ears, I have tried to talk about Cape Breton as much as possible. In return I will go back and talk about all the places I have visited."

During his wanderings, he said he was presented with a 10-gallon hat from the mayor of Calgary, appeared on television 14 times, made numerous radio broadcasts and gave talks to service clubs and school children.

When he returns to Grand Anse, he hopes to make a special television appearance and then settle down to write a book about all the people he has met.

WHAT WAS THE ROYAL WILLIAM?

The Royal William, a wooden paddle-wheel steamer launched at Quebec in 1831, was the first steamship to make an easterly crossing of the Atlantic. She set sail from Pictou, N. S., on Aug. 18, 1833, and reached Cowes on the Isle of Wight on Sept. 6. She was not under continuous steam power throughout the voyage as it was necessary to stop her engines every fourth day in order to cear her boilers of salt. The Royal William had been built to run between Quebec and Halifax but the cholera epidemic of 1832 forced the abandonment of this service and she was sold early in 1833. Her new owner decided to send her to England for sale, since it was believed a better price would be obtained there.

Credit Union Day

ST. PETERS—A potent force that has helped improve the standard of living of millions of people was given international recognition on Thursday, Oct. 15, when credit union members throughout the free world celebrated International Credit Union Day.

Here in Richmond County, approximately Twenty-four hundred members of the area's ten credit unions joined in the celebration by calling other people's attention to the practical services provided by credit unions and by re-dedicating themselves to help themselves and other people through their credit unions.

Started more than 100 years ago, credit unions have evolved with the times until today they have more than 13 million members throughout the world. Their two-fold purpose is to teach their members to save regularly and to use their consumer credit wisely.

By working together in a sort of do-it-yourself financial counselling plan, credit union members have learned that they can make their dollars go much farther and last much longer if they save and borrow wisely. In the United States alone, it is estimated that the country's 10,700,000 credit union members save more than $175,000,000 last year in extra credit charges.

Credit union members have also enjoyed the exhilarating experience of being able to offer their friends, neighbors and co-workers a firm helping hand. Each time a member saves a little of his money in his credit union, he knows it will be used by another member who needs it more than he does. In this way, credit people the real meaning of the unions have taught millions of brotherhood of man.

NEWS ABOUT TOWN AND COUNTY

ABOUT OURSELVES

We don't like talking about ourselves, however, as the Record has been late in getting to your homes, this surely calls for an explanation and we must say a few words about our trip to Montreal, which ended up with a severe throat infection, which kept us under the weather for some time.

Mrs. Bourinot also made the trip and we were guests of our brother and sister-in-law, Mr. and Mrs. Earl Bourinot, who made our trip to the big Canadian metropolis a very pleasant and enjoyable one.

A trip to the Laurentian Mountains, over a super highway with Mr. Walter MacNeil, P. Eng., and his brother Bernard MacNeil was most enjoyable. A fuller account in a later issue. Thank you Walter!

We regret that due to a throat infection we were unable to visit many friends during the latter part of our stay.

While we were away we give members of our family credit for taking out an issue of the Record and if the Linotype operator, Mrs. James Dickie, of Port Hastings, was able to remain for another week the next issue would have been published also.

The Bourinot family have been engaged in the printing industry for 63 years and when it is said: "printer's ink flows through our viens"—we are almost inclined to believe this to be true.

A Welcome Visitor

Friends in Arichat were glad to see Vincent Power, when he was a recent motor visitor here from Needham, Mass., where he operates Power's Cabinet Shop, Inc., at 675 Highland Ave. We are happy to report that Vincent has been most successful in his venture and turns out splendid work that is much in demand.

A son of the late Sheriff and Mrs. Power of this town, Vince enjoys visiting old friends and haunts of his childhood.

He was accompanied on his visit by Plim Dempsey, Needham, Mass., and Carl Merrill, of Natick, Mass. We were away in Montreal at the time of Vincent's visit and missed meeting our old friend and his companions.

Thank you Vincent for the Handy-T-Square and pencil left for us in care of Miss Laura Cutler. These gifts are much appreciated.

POINT TUPPER HOME & SCHOOL

The monthly meeting of the Point Tupper Home and School Association was held in the School on October 20th with 21 members in attendance. Mrs. Harold Oliver, President, was in the chair.

The reports of the Secretary and Treasurer were read and it was moved that these rports be adopted. It was noted that the weekly card plays are even more successful this sason than last and the members approved unanimously the purchase of ten new card tables and score cards to be used at the card plays.

A letter from the County Council Secretary advising of a Training Course to be held in St. Peter's on October 26th was then read. It was decided that officers and conveners from this Association would attend and Mr. Raymond Oliver and Mrs. Harold Oliver very generously offered to supply transportation on that date.

Mrs. H. T. Langley, convener of the Membership Committee, advised that there are now thirty-five paid up members and that more are expected to join. This shows the new interest shown locally in the Home and School Association and is a compliment to the work of Mrs. Langley and Mrs. Earle Peeples, who made a door to door canvass in the community.

An interesting and comprehensive report on the recent County then given the meeting by Mrs. J. W. Cloake. The President extended her the thanks of the meeting.

The meeting then adjourned and a delicious lunch was served by members of the Social Committee.

Many patrons came from surrounding Cape Breton areas to enjoy the tasty meal which was prepared by the ladies of the Congregation. Those in charge express their thanks to all who attended, assisted and donated to Parcel Post. Proceeds will be used for the manse.

The patrons who attended had an opportunity of viewing the new addition to the Hall and the grounds which are undergoing improvements.

Proceeds amounted to 5127.70.

——:O:——

IS A NOR'WESTER JUST A STRONG WIND

That would probably be the usual meaning today. But in the fur-trading days of the great North West Company, the bitter rival of the Hudson's Bay Company until the amalgamation of the two concerns in 1821, a Nor--Wester was an employee or partner of the North West Company. Many names that have added lustre to Canada's history were connected with that company—Sir Alexander Mackenzie, Peter Pond, David Thompson, Simon McTavish, William McGillivray and SSimon Fraser, to mention a few.

PONDVILLE

Bobby Amey motored to Baddeck on Friday with his aunt, Mrs. Jean Amey and her three children: Russel, James and Beverly. On the return they were accompanied by Miss Gwendolyn Amey who is on the staff of Memorial Hospital in that town. Miss Amey spent her holidays with her parents, Mr. and Mrs. Leighton Amey.

Amos Briand an efficient employee of the Deartment of Highways, was a recent visitor to his parents, Mr. and Mrs. Arthur Briand of this place. Amos was recently promoted assistant resident engineer and is at present empoyed at Cape Smokey.

Mr. and Mrs. Wilfred Paon of Montauk, N. Y., were visiting his mother, Mrs. Mary Paon and his brothers and sistere at Pondville. Friends here are always glad to see this popular couple.

Miss Anna Boudreau, teacher, at Little Anse, spent the week-end with her mother, Mrs. Emma Boudreau, of Pondville.

Miss Joan Landry daughter of Mr. and Mrs. Bernard Landry, was visiting her parents over the week-end. Miss Landry is at present taking a business course in Halifax. We wish her much success.

Mr. and Mrs. James Briand of Halifax were recent guests of Mr. and Mrs. Bertie Forrest. Residents in this vicinity are always happy to have Mr. and Mrs. Briand with us.

Miss Maura Martell of the staff of the Nova Scotian Hotel was a recent visitor to her parents, Mr. and Mrs. Venard Martell. She was accompanied by Mr. David Boudreau of River Bourgeois, who is employed by the National Sea Products. We believe this young couple have something planned for the near future.

News has been received from Cpl. Henry J. Martell of the R. C. A. F., as Paratrooper Reserver. twenty seven.

Henry and family have been transferred to Red Deer, Alberta. We wish them every succcss and happiness.

Mrs. Francis Martell who was a patient at St. Joseph'c Hospital, Glace Bay is back home and is much improved in health, we are glad to report.

Among those who attended the card game in Poulamon were: Forrest, Mr. Henry Marchand, Amos Briand Mr, and Mrs. Bertie Mrs. Venard Martell, Jerry Marchand, Mrs. Alezina Bowen. They report a very peasant evening.

LIME

AN AID TO BETTER FARMING

Lime can make all the difference between a bumper crop and a poor one. What might have been a wretched crop of poor quality hay without lime, could be, with lime, an excellent crop running as high as 4 tons to the acre.

A SOUND INVESTMENT

Blast Lime: $1.50 per ton
Ground Limestone: $2.50 per ton.
in bulk carlots, delivered to your nearest railway siding. Transportation assistance on truck lots.
Good farmers find that lime is providing an investment return of about $19. for every dollar spent on lime!

ORDER NOW!

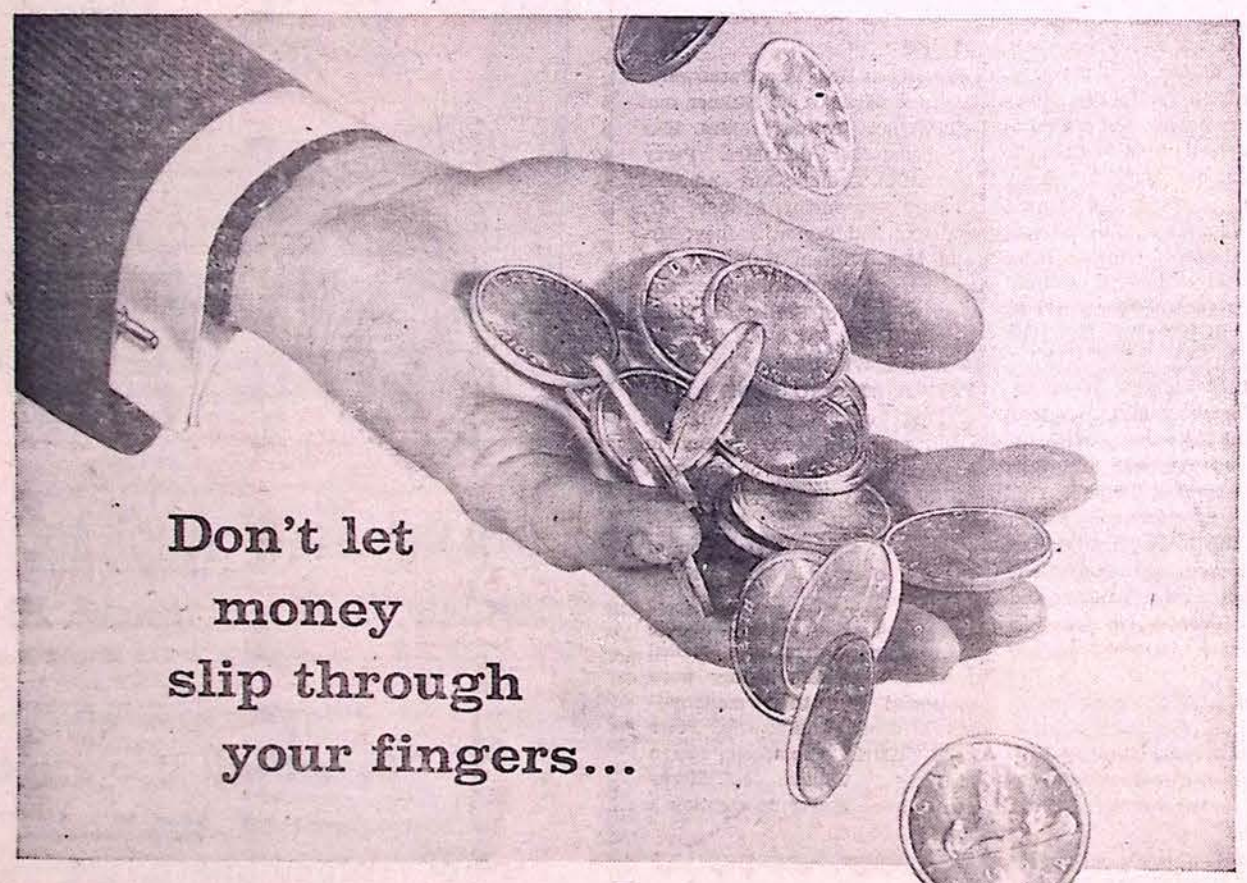

It is a good plan to spread your lime on sod land to be ploughed in the period immediately after harvesting. Nova Scotia's soils are sour, and need lime. The Department strongly advises you to order your lime NOW—to be sure of your best crop next year.

For information about the use and handling of lime, contact your local Agricultural Representative.

For the land's sake—use lime

CANADA SAVINGS BONDS

For those who have trouble holding on to money, this is a convenient and practical way to save. CANADA SAVINGS BONDS are a safe investment with many advantages. If the need should arise, they can be cashed at any time, at any bank, for full face value plus earned interest. They're like dollars with coupons attached. This year they are better than ever.

CANADA SAVINGS BONDS pay a higher return than ever before — 4.98 per cent per year if held to maturity. They come in denominations of $50, $100, $500, $1,000 and $5,000. Up to $20,000 of the new series may be held in the name of any one person (adult or minor) or of the estate of a deceased person.

CANADA SAVINGS BONDS can be bought for cash or on instalments. All are registered as to principal. Interest is paid by coupons payable to bearer, or by cheque in the larger denominations if you wish. Order yours today through the Payroll Savings Plan, or through any bank, investment dealer, stock broker, trust or loan company.

BETTER THAN EVER!
