SUGAR and SPICE

By Bill Smiley

LOVE THAT SUNDAY

Last Sunday was one of those days, Filthy outside, with mud and rain and wind. Dismal inside, with everybody bored and crabby.

I mooched around the house gloomily, wishing the golf course was dry, or the season open. Then I started thinking about what Sunday really meant, was ashamed of myself, and cheered up considerably.

As some wit remarked: to our ancestors, it was the Holy Sabbath; to our great-grand fathers, The Lord's Day; to our fathers, Sunday. We call it The Week End.

The Sabbath is not of Christian origin. It was originally a Jewish holy day, on the last day of the week. Like most of the laws of the ancient Hebrews, observance of the Sabbath was a combination of religion and common sense. Man needs a day of rest in every seven. He demands punctuation marks in the life sentence he is serving.

However, there's a vast difference between the Sabbath of the ancient Hebrew and the Sunday of modern man.

• • •

The former lived a pastoral life. When the Sabbath came along, all he had to do was lie around and count his sheep. He didn't have to roll, groaning, out of bed after a late Saturday night, scramble around trying to get his family off to church, wash the car or catch fish or play golf, drive 80 miles to visit some relatives of his wife, and tear home to watch the hockey game.

If it were not for Sunday, the Saturday night bath would become obsolete. If it were not for Sunday, many men would go through life without shining their shoes. If it were not for Sunday, many women would never get a new hat.

Sunday is a great comfort to those intent on getting to heaven. They don sober garb and pious mien on Sunday morning. On Monday, they go back to the normal pastimes of trying to scramble to political, social and financial eminence over the crushed and bleeding bodies and souls of their fellow Christians, secure in the knowledge that if there is a rush for seats on the judgment day, they will have some pull with the management.

Sunday means church. Church, too, is a good thing. First of all, it provides employment for ministers, and employment, or lack of it, is pretty important these days. Secondly, it provides probably the only place in modern society where peple who like to sing, but sound like hyenas, can vent their frustration without someone telling them to shut up.

• • •

After church, what? There's nothing particularly Christian about gorging oneself with food and sitting in a stupor looking at television.

What about a nice Christian game of golf, with no swearing when one slices? What about a little walk in the woods, worshipping the wonderful world of nature that was created for one? And if one happened to look down and see a fishing rod in one's hand, one shouldn't worry too much about it.

Remember the old adage:

Evangelists may rave and shout,
But only God can make a trout.

OBITUARY
PETER JOHN DORE

Peter John Dore, a highly respected resident of Janvrin's Harbour, passed away at the Infirmary, Halifax, at the age of 89 years. He had been a patient at The Infirmary for five weeks.

A lifelong resident of Janvrin's Harbour, the late Mr. Dore was a very industrious man, and engaged in fishing and farming. He was always ready to help his neighbours and his passing is mourned not only by his large family, but by his many friends throughout the Community.

He is survived by his wife, the former (Bertha DeCoste) and by six daughters and five sons: Alice, (Mrs. Sullivan), of Lynn, Mass Corrine, (Mrs. Lawrence Kelly) of Halifax; Margaret, (Mrs. Sutherland), Halifax; Marion, (Mrs. Kemp), Saskatoon; Eva, Mrs. John MacDonald) of Lynn, Mass.; Sylvia, (Mrs. Mickey Lawless) of Winnipeg; Fred, of River Bourgeois; John of Lynn, Mass.; Leo and Lee, (twins) of Halifax; Bennie of Janvrin's Harbour. One son Roddie Dore, deceased.

The mother of the late Mr. Dore passed away in 1942 at the advanced age of 109 years, and was the eldest person recorded in Cape Breton in recent years.

All members of the family were in attendance at the funeral, and this was the first re-union of the family in 57 years, and during the coming summer this re-union was to have taken place.

YOUR MEMBER REPORTS

In this Report, I intend to deal with SOME of the legislation which was passed at the past session of your Provincial Legislature, and try to relate it as it most affects Richmond County. (I Shall deal with these in their order of introduction in the House.)

1st - As all of you know, there was legislation passed creating a MINISTRY OF FISHERIES, with Premier Stanfield selecting the Honourable E. A. Manson, the Present Minister of Trade & Industry as its first Minister. Mr. Manson, who also represents one of our Cape Breton ridings, was in charge of fisheries previously when it was a branch of the Department of Trade & Industry. He is, in my view, a progressive, knowledgeable and capable Minister with a very big job ahead of him.

The appointment of Mr. Brian Meagher as Deputy Minister has been a very popular one in many circles. Mr. Meagher was formerly Director of Fisheries for Nova Scotia and brings to his new post, some 36 years of experience in the fishing industry, having himself begun as a fisherman.

Some of us will recall that it was in our County, at St. Peter's, that Premier Stanfield first announced his intention to introduce legislation to create this new department. There is great potential in Nova Scotia for an orderly expansion of our fishing industry and in few other counties in the Province, do I believe this to be more true, than in Richmond County.

Important changes are taking place in the fishing industry in Nova Scotia. It will be one of the proper functions of the Department of Fisheries to try to acquaint our fishermen, fish handlers, and fish sellers with the latest methods of catching, processing, packaging and marketing of fish so that we may be able to compete even more favourably in the world market. The encouragement of the expansion of existing plants and the possible developments of new ones MUST, and CAN be made, to make good economic sense.

It should be emphasized however that the creation of a Department of Fisheries does NOT mean that all problems concerning this industry will automatically cease. If this Department is to function properly, it will require the CO-OPERATION and leadership of our fishermen, of labour and of management, as well as the municipal and federal branches of government.

A good example of what a progressive fishing industry can mean to an area may be readily seen in the Petit de Grat area of our County.

2nd. The GOVERNMENT PURCHASES ACT of the Province was revised so as to include the following provisions:

(a) for the establishing of a Nova Scotia Government Purchasing Agency which shall be under the immediate control of a Director of Purchases.

(b) for the appointment of a director of Purchases who shall hold office during good behaviour.

(c) that the Agency, within the terms of the Act, shall ACQUIRE SUPPLIES AT COMPETITIVE PRICES OR AT FAIR AND REASONABLE PRICES.

(d) for monthly reports by the Director of Purchases to the Auditor General in respect of certain matters.

3rd. The Social Assistance Act was amended to permit the continuation until age eighteen of SOCIAL ASSISTANCE with respect to children who remain in school IN A NUMBER OF SITUATIONS WHERE THE CONTINUATION IS NOT NOW PERMITTED. This INCLUDES cases where assistance is being paid to a woman whose husband is serving a term of imprisonment or wh has been deserted by her husband or whose common law husband of five years or lnnger has died, or to a person who has the care of abandoned children.

4th THE INDUSTRIAL ESTATES LIMITED ACT was amended to increase from eighteen million dollars to fifty million dollars the amount that the Province may make available for purposes of Industrial Estates Limited; also to permit a city, town or MUNICIPALITY to grant Industrial Estates Limited or its tenant SPECIAL RATES OF TAXES OR EXEMPTIONS FROM TAXES; also to provide that a tax concession to Industria Estates Limited shall not be for longer than twenty-years or to a tenant for longer than ten years in such a manner however as to enable a municipal body to grant a concession for a longer period with the approval of the Governor in Cuncil (Cabinet).

Industrial Estates Limited, a creation of the Stanfield government, has had remarkable success in attracting industry to this Province. Its most latest spectacular success was the part it took in helping to bring to Cape Breton, the HEAVY-WATER PLANT.

It may be that our MUNICIPAL COUNCIL will want to take a very thorough look and study at the possibility of taking advantage of the "enabling" legislation in connection with entering into taxing agreements with Industrial Estates Limited to provide incentives to encourage the possible location of further and badly-needed industry in Richmond County.

Of Many Things

By AMBROSE HILLS

THE BOOM IS HERE

A leading financial newspaper writhe this headline: "Yes - - call it a boom: upturn is that strong."

Never one to refuse to say I told you so, I point out that in this column many weeks ago the present boom was predicted. Employment, consumer spending, and higher incomes are following like a tail on the end of the business-expansion kite. Only storm-cloud on the horizon is the threat of inflation.

Why the boom?

Many factors are involved, but I'd give the nod to the restraint of Canadians during the vital period when everybody was crying blue ruin.

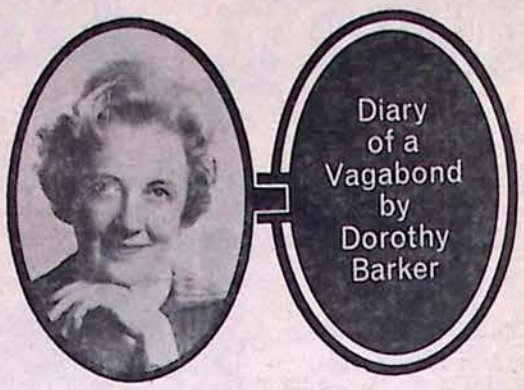

When will the boom become a bust?

Never, let us hope; but it could be ended promptly if Canadians start to dump all the restraint that brought the boom right into the wide-mouthed ash-can of greed.

Canadian industries have proved that they can operate efficiently and invade other markets effectively given half a chance. Here in Canada, however, we have a habit of cutting them down every time they show signs of real vigor. In some minds, the only time business is popular is when it is in trouble. Then they rush in to help it. When it is sicceeding, they do everything in their power to check its growth. . and then condemn it for not providing jobs.

If, during the next year or two, Canadian business is allowed to keep costs down, we can win and hold markets that will be ours for the next decade. However, if costs spiral through unreasonably high taxes or labor policies, the surge that has brought the boom will stop.

I am betting the boom will last. I believe Canadians in large numbers have learned that when business is good, times are good, and they'll want to keep it that way. In spite of automation, or even perhaps because of its adoption by Canadian firms, the next three or four years could see us with more jobs than suitable applicants. At any rate, let's give the jb-makers every incentive to create that situation.

SPRING, SPRING, BEAUTIFUL SPRING!

Spring, paradoxically, always reminds me of Christmas! Know why? Because it has so many wonderful gifts to offer.

First, there comes the gift of seed catalogues. I always love it when I have tramped up the long hill to our group mail box, struggled with chilly fingers to unfasten the lock and then find tumbling out - - roses! Great fat pink, yellow or red blooms on the paper cover of a whole wonderland of summer promise offered by my favorite nursery. I can spend hours planning where the new white lilac should be planted, or trying to screw up enough courage to order papaver meconopsis, which in plain English spells Blue Himalayan poppy, or an insect eating plant that masquerades under the unbelievable name of DARLINGTONIA.

I draw a ring around a date on the calendar when I first heave out the little collapsible lawn chair from the mound of awnings and barbecue equipment stacked in the tool house. Then I sit in the lea of a southern exposure where I can sort out the piles of travel literature each mail delivery has been contributing to the orderly confusion on my desk.

It doesn't matter that I contract a "gold id by hea", or a hurting sunburn below my sunglasses. It's worth a little discomfort to just sit there envisioning what my favorite CN resort looks like in the last throes of winter construction.

Trips For All Tastes

For the past five years Jasper Park Lodge has taken on the aspect of a town under construction. This year, nine major cottages are nearing completion which will add 65 guest rooms to the 21 cottages and 148 rooms that have been erected since a new building program began in 1959, to cope with the demand for reservations.

Then there's this year's package tour to the New York World's Fair. I'm a World Fair addict and not one, but three grandchildren am already anticipating five days in tow.

A news release relates what this tour will mean to prairie folk. Leaving Winnipeg on May 4, the tour will include a trip to Montreal aboard the Super Continental, four and a half days cruising on a deluxe ocean liner and a five-day stay in New York. Imagine a leisurely voyage aboard Holland-America's "Ryndam" down the Gulf and along the Atlantic and Cape Canal. Even hotel accommodation is included in New York. Similar tours originate in other Canadian cities.

Another tour dreamed up by the CN passenger department is "Springtime in the Rockies." It's slated for May 30 to June 11 and includes three days in Jasper Park, four in Vanvouver, bed, hotel, sightseeing tours, meals and transfers. The Rockies have been referred to as "the most beautiful scenery in the world."

Besides glorying in the first warmth of a spring day I was thinking how lucky we are to have travel agents, railways and seafaring companies planning our summer pleasure.

IN MEMORIAM

In loving memory of Gustave Bouchard who passed away on April 13, 1960.

Along the road to yesterday
That leads me straight to you.
Are memories of the happy days
Together we once knew.
And always every evening
I seem to find a way
Of wandering back to meet you
On the road to yesterday.
To me you have not gone away,
Nor have you travelled far.
Just entered God's Eternal Home,
And left the gates ajar.

Sadly missed,
Johnny Stone,

HEADLIGHTS NEED CHECKING

"Faulty headlights on an automobile can cause injury, or death, on the hifhway," warned J. C. Holloway, secretary of the Canadian Highway Safety Council's vehicle safety committee. Wrongly adjusted or burned out headlights could confuse or mislead approaching traffic, he said, and fatal road crashes could result. Mr. Holloway, who is general service manager for Studebaker of Canada Ltd., declared, "Headlights are one item of a car's equipment that can be faulty without the driver knowing it. Every car driver must check his vehicle's headlights regularly."

Mr. Holloway added a warning that a car's front-end turn signals should always be in working order and always be used. "Signalling your turn direction alerts oncoming drivers and can prevent serious mishaps, both on highways and streets," he said. "Sometimes, this mechanism develops faults, often preventing the automatic shut-off and the signal continues to operate after the turn is made. This," he cautioned, "can be as dangerous as failing to signal."

He urged every motorist to take advantage of the Council's April-May car-check campaign to have his vehicle thoroughly checken by trained mechanics, for his own safety as well as the safety of others.

Since there was no other business we moved to the program of the evening.

A film on the importance of education - "You Can Go A Long Way" was given by John DeCoste.

After the film, Father Poirier commented that this film gave food for thought to all parents. Parents could easily see what happens to children who do not want to go to school. It doesn't matter as much for girls, but boys are up against a tough world if they aren't educated.

Since there were no further questions and comments the meeting adjourned on a motion from Father Poirier.

A lunch was enjoyed by all.

The March meeting of the Arichat Home and School Association was held at the Isle Madame District High School at 7.30 p. m., on March 17th.

Due to the fact that the President of the Home and School was unable to attend, it was moved by Mr. M. J. MacNeil and seconded by Mrs. D. O'C. Madden that Rev. Father A. P. Poirier chair the meetiing.

Rev. Father Poirier opened the meeting and said the prayer.

Following roll call the minutes were read.

It was moved by Sr. Monica Marie and seconded by Mrs Amable Boucher that the minutes be adopted as read.

Sr. Amadee Marie thanked the Home and School members for the Mass given for her late father.

The following is business arising from the minutes.

Mrs. D. O'C. Madden, chairwoman of the Committee appointed to look into the matter of buying dishes, gave a report on the prices.

Since there wasn't much difference between prices from the wholesalers and prices from the local stores, it was moved by Mr. M. J. MacNeil and seconded by Mr. Gerald LeBrun that Mrs. Madden ask the merchants in town for the price it would cost if the Home and School bought these dishes in a bulk and report at our next meeting. Motion carried.

It was moved by Mrs. Francis Britten and seconded by Mrs. Francis Sampson that the Arichat Home and Schol send $5.00 to the Founder's Day Fund.

Motion carried.

After some discussion on whether it was wise and possible to move the age limit for leaving school from 14 to 16 years of age. It was moved by Gerald LeBrun and secnded by Amable Boucher that a resolution be sent to the Municipal School Board asking them to look into the possibility of changing the age limit for leaving school from 14 to 16 years of age.

Motion carried.

It was moved by Mrs. D. O'C. Madden and seconded by Mrs. Ralph Sampson that the Secretary write to Frank McKnights Record Store and ask them to send Mr. George Webb to come and tune the Home and School piano and also to fix the lock and leave keys for the piano. Motion carried.

Mrs. Joseph Chiasson asked if it would be possible to have scribblers and pencils sold at the school.

Mr. M. J. MacNeil said that he would inquire and report at our next Home and School, if it would be possible to sell the scribblers and pencils.

Since there was no other business we moved to the program of the evening, a talk given by Mr. M. J. MacNeil on "Education".

Mr. MacNeil started his talk by thanking Rev. Father A. P. Poirier for a lovely set of encyclopediae for our school library.

In his talk Mr. MacNeil brought up the subject of Home discipline.

At home some children have no organized program and they do whatever they feel like doing. Children look to their parents for guidance and love. They need these to achieve success. Their parents should provide the encouragement, guidance and discipline they need.

Mr. MacNeil finished his talk by asking the parents to help their children develop a love for books, because children and adults, both, gather good material and information and also enjoyment from books.

Father Poirier thanked Mr. MacNeil for his very interesting talk on behalf of the members of Home and School.

The meeting adjourned on a motion made by Mrs. Amable Boucher.
