THE RICHMOND COUNTY RECORD, ARICHAT, N. S. MARCH 27, 1971

## Report on Isle Madame District High School

(The following story was taken from "The Teacher", voice of the teaching profession in Nova Scotia. The story certainly speaks well of the teaching staff of our school and the methods used in the various departments.—Editor.)

"A modern, fully-equipped reading clinic serving 150 students. Family Life class covering all phases of this subject, cooking school for boys, and marine science department complete with net loft are just some of the many features found in Isle Madame District High School, Arichat, Richmond County.

**The Teacher** recently visited the school to tour facilities, take photographs and see some of its many progressive programs in action.

Isle Madame District High serves all the Isle Madame area, a large island off the Cape Breton coast as well as the village of Louisdale and the area up to trunk highway No.4.

*****

**COMPREHENSIVE SCHOOL**

Under one diversified roof it accommodates classes from grades elementary to 12, a total of 1200 students in all. Students receive both academic and vocational shop courses in IMDHS teacher Blaise Ross termed "one of the province's few comprehensive schools.'

Supervising principal is Michael J. MacNeil and elementary principal is Jim Burton. Staff numbers 70.

Mr. Ross told **The Teacher** the school provides a wide assortment of classes for students. In addition to its reading clinic and Family Life department the school boasts courses in woodworking, electronics, motor mechanics, drafting, building instruction, welding and small motors.

It has two gymnasiums, a 500 seat audio visual theatre, a business education department, as well as a class for "trainables" students aged 8 up to 14 years, the pre-requisite for which is severe retardation.

Chief among programs for equipment being utilized in this school are services prov-ded by two teachers in the school's completely up-to-date reading clinic. Under the supervision of Mrs. M. E. Boudreau and Aubrey LeBlanc, the clinic involves 150 students in the improvement of reading skills. Students range in age from 8 to 18 and of these, 80 students are dealt with individually or in small groups from 4 to 6.

Others of the total number are involved in large group instruction (10 to 15 to a group) and in some cases a class of 30 to 40 students is divided into 3 groups and three of their reading periods are spent in the reading laboratory with a class room teacher and reading teachers in the centre. Development reading is offered to all students in junior high.

*****

**WELL EQUIPPED CLINIC**

Mr. Ross said all students have their remedial reading periods at a time when the class is scheduled for an English period. This enables them to benefit from instruction in the content areas where instruction is highly individualized and it does not interfere with the students music, gymnasium or shop periods.

He noted the clinic is equipped with four carrels, each having a controlled reader and tape recorder. The tape recorder is also used at the listening post with a jack-box and eight earphones. The clinic also includes equipment such as an udiometer, telebinocular tachistoscope, flash-X machines, SRA labs and many skill builders.

Mr. Ross said one of the outstanding features of the reading clinic is the way students handle all their equipment themselves, and do a great deal of their own marking and recording of progress. The teacher assists the child with corrections when necessary, and with the student discusses the achievement for the lesson and the areas needing more work. "This places much responsibility on the student," Mr. Ross said.

Since we began a year ago we have been able to measure the progress made by our students, some of whom have made from one to two years progress during the last school term. Many, however, progress very slowly but steadily and for some students a few months progress in a year is as much as can be expected."

***

**READ FOR PLEASURE**

Another way to evaluate work of the clinic is by observing the progress made by the students in the content areas and in many cases a better attitude towards school. It is also gratifying to see, said Mr. Ross, some students who never read for enjoyment before, take a book, read it, and get pleasure from it.

Aubrey LeBlanc, reading specialist, said the term 'remedial reading' is somewhat misunderstood and frequently maligned since it suggests that reading skills are being remedied.

"Generally speaking, this is not true,, since most of those involved are not patching up or rebuilding previously learned skills but are involved in a development program."

He said the improvement of a child's attitude towards reading is one of prime importance. He is made aware of the purpose of each drill or other reading activity.

"The child should experience some success at each corrective session," said Mr. LeBlanc, "since he has met defeat repeatedly. This helps him develop self-confidence in his ability to read.

"Diagnosis is a part of the whole remedial process, not just a prelude to remedial instruction. Modern equipment, high interest materials are used and methods and materials are changed frequently to keep the child highly motivated.

"Most of our students are of average intelligence, but lack the necessary reading skills to succeed in the content area," Mr. LeBlanc said.

***

**VOCATIONAL SHOPS**

Among the school's vocational programs (shops) are included electronics, welding and small motors, etc. These programs are exploratory in nature and are designed for all boys with an interest and a desire to obtain an insight into vocational educational training.

Mr. Ross said after having spent three years in these programs it is hoped that the students will be better prepared to select the program of their choice and then proceed to a vocational or technical school for further training and certification.

Having participated in these programs, he noted, the boys involved should have a degree of knowledge of the nature of the trade that will enable them to pursue further training with a considerable degree of success. In other words chances of success in pursuing further knowledge of the trade (and presumably working in the trade) after leaving should be greatly increased.

Isle Madame's marine science department is unique in that it features a program for boys in which they are given basic skills involved in boatmanship and handling and development of fishing techniques and fishing gear.

Most eye-catching upon entering into the large department is the full size trawler net which is suspended from the ceiling for study by students.

Don Jack, instructor, said, "It is hoped that after completion of this program the boys will be better prepared for employment in the fishing industry or will be better prepared to pursue studies in marine science."

In its electronic workshop students study basic electriciay and house wiring as well as a study of electrical current AC and DC. Basic electronics is developed through the building of projects, some of which include building a power supply for a transistor radio; an amplifer for record player; constructing small transistor radios;

***

**FAMILY LIFE CLASSES**

The modern up-to-date program being carried out at Isle Madame High School includes in its curriculum a Family Life course.

Instructor for the course is Mrs. Beverly Samson, who conducts training in a home-like atmosphere which includes dining and living room settings.

The course, said Mrs. Samson, is divided into 7 units. Unit 1 includes phases of family cycle; comparison of families now and in pioneer days and tasks including various phases of the life cycle. Unit 2 includes dating, reproductive system, how sex is determined, prenatal care and post natal care. In the third unit of the course, students are given instruction in child development; toilet training; discipline; baby-sitting.

Consumer education takes up most of Unit 4. Included here are items on budgeting, where to purchase, when to purchase, introduction to the different types of sales carried on by merchandising establishments. Students are also shown when sales are a bargain and how the individual can attain information regarding purchases of new products. Labelling, food and drug directorate and advertising are also covered in the consumed education unit.

In Unit 5, Mrs. Samson instructs her students on housing, including such items as location, type of house, how to determine the type of house you need, cost, co-op housing, heating, interior decoration, furnishings and financial assistance.

Unit 6 involves home management with care of appliances and utensils in the home and upkeep of daily, weekly, monthly and annual chores.

In the final segment Unit 7—entertainment, good grooming, job application, home nursing, drugs, smoking and alcohol are covered as content.

Although Isle Madame is not strategically located near growth centres, the combined elementary junior high and high school classes and their respective students have been provided with the most up-to-date equipment for the efficient operation of a comprehensive school.

———:o:———

**WORLD RED CROSS DAY**

May 8, 1971 is World Red Cross Day. It honours the birth of Henri Dunant, founder of the Red Cross. This year's World Red Cross Day slogan, "The Red Cross Working Around the Clock," typifies the efforts of thousands of Canadian Red Cross volunteers who respond to the appeals for help and the urgent needs of their fellow man.

## Edmund Mauger

Edmund Mauger of Cape La Ronde passed away at his home after a brief illness.

During his early life he attended Kings Theology College, Windsor the Anglican College of the Diocese of Nova Scotia. He had just about competed his B. A. Course, when ill health forced him to return to his home, where he remained up to time of his death. After the death of his brohter, John, some years ago, he remained alone on his island home where he raised cattle, on this once productive farm. The late Edmund Mauger was a devout Christian and told us that his greatest comfort in life was reading the bible.

A descendent of the oldest Jersey pioneer family in Cape La Ronde, he was conversant in both French and English. At his home during his parents lifetime, the Anglican prayer book and bible were French editions.

The late Mr. Mauger was in his 83rd year and is survived by one sister, Mrs. Laura Wilson of Boston, Mass., as well as one nephew, Gordon Mauger of Poirierville and several nieces.

The remains rested at the Boucher Funeral Home, Arichat and funeral service took place from St. John's Anglican Church, Arichat, with Rev. C. A. McMillan officiating at the church and graveside.

Interment was in the parish cemetery.

A. O. MacLean, of St. Peter's was organist.

## THE WORLD AT EIGHT

Every weekday morning at 8 a.m. two of CBC Radio's most experienced newscasters Jim Chorley (left) and Rex Loring (right) bring you one of the most complete and documented news programs on the air today, The World At Eight. For 30 years the CBC News Service has built up a reputation for up-to-the-minute, accurate and authoritative reporting on local, national and world events that make CBC Radio News broadcasts come up winners every time. Keep informed—stay tuned to CBC Radio for the World At Eight.

## Screen Education Seminar At Mabou

Inspector of Schools Clifford E. Edwards, and Robret Potts, principal of Clarke Rutherford School, CFB Cornwallis, have returned from Mabou, Inverness County, where they conducted a Screen Education Seminar for the High School teachers in Inverness County.

While in Cape Breton, Mr. Edwards accompanied by Mr. Potts, visited his old home in Arichat. Clifford is a son of the late Mr. and Mrs. Philip Edwards and is one of the most outstanding educators in the province of Nova Scotia. He is a graduate of Acadia and Columbia Universities.

Mr. Potts, is a specialist in Screen Education and conducts Seminars throughout the province from time to time. He is the very efficient principal of Clarke Rutherford School at Cornwallis.

A visit from Cliff and Bob was much enjoyed and appreciated. Both these men are contributing much in the field of modern teaching methods and we wish them continued success in their efforts.

## $868,836.00 Spent on N. S. Election

The three political parties and their 117 candidates spent a total of $868,836 in the Nova Scotia provincial election last October 13.

Chief electorial officer, Gordon Davidson, said the parties spent $306,832 while the candidates spent $562,004.

Mr. Davidson said the Liberal party spent $160,613, while the Progressive Conservative party spent $145,126 and the New Democratic Party spent $3,093.

Tuesday was the the deadline for filing of expenses under the Nova Scotia Election Act.

Although political parties are required to report their expenditures, they receive no rebate.

However, candidates who receive at least 15 per cent of total votes cast in their riding are eligible for reimbursement of part of their election expenses.

The rebate is rated at 25 cents for each eligible voter in a successful candidates constituency.

## MAN'S STAY ON PLANET IS BRIEF

"The following was sent to us by Mr. Hector Grenier, of Cambridge, Mass., when remitting a subscription to the Record and is indeed worthy of note."—Editor.

How brief is man's stay on this planet compared to the life span of the Universe, or ultimate reality?

Hendrik William Van Loon, the Dutch historian, put it this way on the opening page of "The story of Mankind."

"High up in the North in the land called Svithjod there stands a rock. It is a hundred miles high and a hundred miles wide.

Once every thousand years a little bird comes to this rock to sharpen it's beak.

"When the rock has thus be worn away" then a single day of eternity will have gone by.

## YOUTH TRAVEL PROGRAM ON EXCHANGE BASIS DURING THE PRESENT YEAR

The Nova Scotia Youth Agency will carry out an expanded youth travel program during 1971, including an exchange program involving Nova Scotian and Scottish young people.

Hon. Peter M. Nicholson, the minister responsible for the agency, said there will be 11 groups of 21 Nova Scotian students each visiting and going out of the province this year.

The Nova Scotia Youth Agency, responsible for the Young Voyageur Program in the province, is cooperating with the federal government and other provinces and territories to improve and enlarge this program.

The biggest innovation in the program this year involves four of the units which will travel during the fall, enabling the students to attend school and to see the host community in its normal routine, as opposed to the summer vacation period.

Programs in provincial, national and international travel are being supported by the Youth Agency, including a student-teacher guide to the provincial capital being compiled by the agency.

The agency also provides information on transportation, accommodation and tours in the nation's capital as well as handling requests from French speaking groups in New Brunswick and Quebec for exchange students.

On the international scene, the Youth Agency is co-ordinating an exchange involving 40 young Nova Scotians and 34 Scottish young people.

The possibility of operating an educational exchange between the province of Nova Scotia and Scotland was discussed by Greg Donovan, Nova Scotia commissioner of youth, and Ian Gilmour, director of the English Speaking Union of the Commonwealth, when Mr. Donovan accompanied a delegation of young Canadians to Scotland last year.

The first of two programs is the exchange of 24 students from Nova Scotia and 22 students from Scotland for a thee week period this summer. The Scottish students will stay with students in Cape Breton and will attend classes for a part of the time and also tour local industries, and historical and cultural points of interest.

The Cape Breton students will depart for a three week return visit to Scotland where they will also attend school for a part of their stay.

The second exchange between Scotland and Nova Scotia which is being co-ordinated here by the Youth Agency is a community service exchange program. Twelve Scottish young people aged between 17 and 25 will be billeted in homes in Nova Scotia and involved in day care centers, with elderly people, mentally or physically handicapped —anything which comes under the heading of community service.

In August a number of young people from Nova Scotia will return the visit and work and live in Scottish communities.

The Youth Agency is also assisting in the organiization of Neworld Educational Cruises in the province. It is hoped that 200 Nova Scotia students will participate in this program in November 1971.

The Nova Scotia Highway Safety Council reminds bike riders that, just like a motorist, they must obey all traffice laws, signs and lights.

## Miss Teen Canada Pageant '71

Monday April 19 on CBC Television

Lovely 17-year-old Jana Jorgenson from Coquitlam, B.C., is the reigning Miss Teenage Canada who will crown the new 1971 Queen on Monday, April 19. The Miss Teenage Canada Pageant will be carried live and in color on CBC-TV at 8 p.m. with host Alex Trebek and commentator Lorraine Thomson joining the many beautiful and bright young ladies who will be representing their various regions across Canada. There'll be music, dancing and special guest artists to complement the show as well.

—Courtesy of CBC

## Women's Institutes of Nova Scotia

Members of the Provincial Executive of the Women's Institutes of Nova Scotia met in Truro at the Nova Scotia Agrilcutural College. Mrs. Clarence Crowell, President, of Kemptville, Yarmouth County chaired the sessions.

W. I. members in the province are being urged to study the report of the Royal Commission on the Status of Women, to know what the Commission has recommended to the government and to let their Members of Parliament know their thinking on the report. Mrs. Eva Cromwell, Convener of Legislation and Citizenship, of Acaciaville is suggesting branches use the booklet, "What's In It?" published recently for the National Council of Women, which outlines the many recommendations made by the Commission. Letters were read at this meeting from Prime Minister Trudeau and Mrs. Grace MacInnes, M.P., regarding the Report.

Plans for the W.I.N.S. Provincial Convention are being made. It is to be held July 27th and 28th at the University of King's College, Halifax.Mrs. E. V. Fulton, Birtle, Manitoba, the President of the Federated Women's Institutes of Canada will be attending the convention. The theme, "The Family-Pathway to Progress" has been chosen and the program will feature panels and speakers dealing with various aspects of Family Living, the topic being used by several of the Provincial Conveners for programming.

The conveners, in reporting to the Executive, gave the new program topics now being used by the branches which included The Needs of Children, Cosmetics, Writing Creatively, Rural Waters, Milk, Apples, the study of the International Organization of W.I.'s, A.C.W.W and the study of Norway, the site of the next international conference at Oslo.

This international conference will be held in August 1971 and representing W.I.N.S wil be Mrs. Clarence Crowell, Kemptvile, Yarmouth County; Mrs. Gilmore McLellan, Noel Shore, Hants County, Mrs. Robert Tulloch, Dartmouth and Mrs. Donald McInnes, Lyon's Brook, Pictou County.

Five provincial conveners will be attending a Conveners' Seminar in Ottawa later this month. At this time, conveners from across Canada will discuss programming with the national conveners. Those going from Nova Scotia will be Mrs. Eva Cromwell, Acadiaville, Mrs. Bernely Cann, Coldbrook, Mrs. Gerald Logan, Upper Stewiacke, Mrs. Peter MacKay, Caribou and Mrs. Eric Meek, Canning.

Mrs. Charles Best, Cambridge Station, Chairman of the Scholarship committee announced that the Family Scholarship would be increased to $400 and would be payable during the student's first year at university. The Teachers College Scholarship, valued at $200 and the University Home Economics Scholarship, valued at $300 would be continued. Application forms for these scholarship can be obtained by writing Mrs. Best or the W. I. Office, N.S.A.C., Truro.

——:o:——

Mr. Motorist, how well do you know the law? Did you know that you must turn on your headlights during the period half hour after sunset and one half hour before sunrise or any other time when visibility is limited by fog, rain, snow or other conditions to a distance of 200 feet. Turn on your low beam headlights, not your parking lights. Obey the law—it could save a life.

## 25th WEDDING ANNIVERSARY CELEBRATED

Mr. and Mrs. Trueman Smith, College Street, celebrated their 25th wedding anniversary on March 6th.

The couple were guests of honor at The Gael for approximately 40 relatives and close friends.

Later in the day, neighbors and friends called at the Smith home to offer best wishes to the couple who were married at Arichat on March 3, 1946. Rev. Conrad Gerroir had officiated at the ceremony in Immaculate Conception Church.

Mrs. Smith is the former Verona Marchand, a daughter of Mr. and Mrs. B. J. Marchand, former residents of Arichat, but now residing at Orchard Villa, Antigonish.

Celebrating the happy event with their parents were Caroline (Mrs. John Burke), of Fredericton, N. B.; Patrica (Mrs. Boyd McKenna), Antigonish; Trueman J., Margaret and Richard. Grandson Jimmy Burke also was present.

—Antigonish Casket

We congratulate Trueman and Veronica and wish them continued happiness.—Editor.

## ON SICK LEAVE

Albany Babin our obliging bus driver on the Arichat-Sydney route is at present on the sick list.

He is being relieved, by Arthur Stone, who very capably carries out his many duties.

The bus service is being operated by the LeBlanc Bus Service of Syndey.

——:o:——

## NEW SCHEDULE FOR BLUENOSE

Her refit in the Halifax shipyards competed, the Canadian National ferry Bluenose has resumed operations between Yarmouth, N. S., and Bar Harbor, Me.

At the same time the ferry began a new schedule designed to provide a more convenient link for Nova Scotia products moving to New England markets. She now leaves Yarmouth at 9 a.m. on Sundays, Wednesdays and Fridays — until June, when she will make a round trip every day. Previously she had sailed from Yarmouth on Mondays, Wednesdays and Fridays. The ship will return from Bar Harbor on Mondays, Thursdays and Saturdays at 8 .m. instead of Tuesdays, Thursdays and Fridays.

You may now qualify for the increased Guaranteed Income Supplement to your Old Age Security Pension

Apply now!

**If you received a supplement in 1970 . . .**
you may qualify for increased payments after April 1st, 1971. At that time, the maximum combined Old Age Security pension and Guaranteed Income Supplement will be raised to $135.00 a month for a single person or a married person whose husband or wife is not a pensioner, and to $255.00 a month for a married couple who are both pensioners ($127.50 each).

**If you did not receive a supplement in 1970 . . .**
you may now qualify for one as of April 1st, 1971, because the amount of income you are allowed has been adjusted upwards. Nearly 300,000 more Canadians will benefit from this change. The new maximum Old Age Security pension and Guaranteed Income Supplement will be $135.00 a month for a single person and $255.00 a month for a married couple who are both pensioners ($127.50 each).

You have already received an information booklet and an application form for the supplement. If you think you are eligible, and have not already completed and mailed the application form, you should do so now. The increased Guaranteed Income Supplement is not sent to you automatically. You must apply for it each year. For further information or assistance in determining whether you are eligible for an increased supplement, write the regional Old Age Security office at the address shown below:

# NEWS ABOUT TOWN AND COUNTY

### BAZAAR A SUCCESS

At a Bazaar sponsored by the ladies of St. Anne Hospital Auxiliary realized the sum of $1,320. In the drawing the following won prizes: Quilt won by Miss Delores Britten; Chair won by Mrs. Leonard Jeffrey and a doll won by Mrs. Clement Theriault.

Members of the Auxiliary wish to thank all who helped in any way to make the bazaar a success.

Mrs. Wilbert Stone is the chairlady and much credit goes to her for service she is performing in various welfare organizations for the past several years.

———:o:———

### FROM TRURO

Mrs. J. C. Robertson of Truro, is visiting at the home of her sister and brother, Ralph and Laura Cutfor several days.

Ralph who had been a patient at St. Rita Hospital, Sydney, returned home recenty and is at present a patient at St. Anne Hospital.

We trust that Raplh will soon be restored to good health.

### FROM OTTAWA

Mrs. John Connelly and daughter, Genevieve of Ottawa are visiting at the home of Mrs. Connelly's parents, Mr. and Mrs. Lennox Mauger of Cape LaRonde.

———:o:———

### MARGARET EDWARDS

Miss Margaret Edwards 85 of 50 College Ave., died on February 25th after a short illness, in the Somerville Hospital. She was a resident of Somerville, Mass., for 60 years. She was born in Pondville, Nova Scotia.

Funeral services were in the West Somerville Baptist Church on Feb. 27th. The remains rested at the A. E. Long Funeral Home at 19779 Mass Ave., Cambridge. Interment was in the Newton Cemetery, Newton, Mass.

Mrs. Cassie Parker, who resides at the home of Mr. and Mrs. Stanley Diggdon, West Arichat, is a sister of the deceased.

The brilliant drama series chronicling the historical saga of Henry VIII of England and his six wives is now being presented on CBC-TV in six 50-minute episodes, for telecast Sundays at 9 p.m. (in color), starting March 21. The Six Wives of Henry VIII stars Keith Michell as the Tudor king who, in the TV series from BBC television in England, ages from 18 to 56.

—Courtesy of CBC

## Charles DeCoste

While on his daily milk route, Charles DeCoste, of Arichat, was instantly killed at D'Escousse, on March 20th, when the milk truck he was driving left the highway at D'Escousse intersetion and collided into a tree. The cause of the tragic accident is unknown.

Mr. DeCoste was in his 60th year and was employed by the Modern City Dairy. He was a son of the late Mr. and Mrs. Charles DeCoste.

Charles was a good neighbour and highly regarded by his many friends in Arichat and throughout Isle Madame as well as his milk route on the mainland, where he made many friends.

He is survived by his wife the former Greta Hake; two daughters, Mrs. Roy Boudreau, (Corona) of Poulamon; Helen of Montreal. Two sons, Levi of Welland, Ont., and Peter at home. Three brothers, Leonard of Boston, Mass.; Jeffrey and Clifford of Arichat. Three sis- (Violet), Mrs. Francis Boudreau of Petit de Grat; (Irene) Mrs. Godfrey Boudreau, Halifax and Mrs. Albert LeBlanc, (Delima).

The remains rested at the Boucher Funeral Home. The Funeral Service was in Our Lady L'Assomption Church, with Very Rev. A. P. Poirier officiating. Burial was in the Parish cemetery.

The funeral was largely attended.

We extend sympathy to the bereaved wife, children, sisters and brothers.

———:o:———

### ATTENDED FUNERAL

The following out of town relatives attended the funeral of the late Charles DeCoste:

Mr. and Mrs. Leonard DeCoste, Boston; Mrs. Tony Condy, Mrs. George Haines and Mr. and Mrs. Wayne Ottaway, all of Dartmouth; Mrs. Herbie Young, Boutilier's Point; Levi DeCoste, Welland, Ont.; Helena DeCoste, Montreal; Fred Hake, Shubenacadie; Mrs. Stuart Ross, Montreal and Mrs. William Sabean, Falmouth.

———:o:———

### GOLDEN ANNIVERSARY

Congratulations are extended to Mr. and Mrs. Wilfred Cormier of West Cbezzetcook, formerly of Woodside, who recently celebrated the 50th anniversary of their wedding at a reception. They were married in St. Peter's Church, Dartmouth.

Both their sons Ray and Bill were down from Ontario to honor their good parents on the occasion.

Mrs. Cormier is the former Blanche Boutin, of Arichat, a daughter of the late Mr. and Mrs. William Boutin.

The couple received many gifts and messages of congratulations from friends both far and near.

We join with their many friends in wishing Wilfred and Blanche continued good health and happiness.

———:o:———

## West Arichat News

Mrs. Theodore Gerroir visited relatives at Ooromocto, N. B., recently.

Mr. and Mrs. Edward Forgeron were motor visitors to Sydney recently.

Mr. and Mrs. Wilfred Poirier left for Brighton, Mass., to visit her sister and brother-in-law, Mr. and Mrs. Paul Paon.

Friends of Mrs. Robert Haskill will be pelased to learn that she is recuperating at her home after being a patient at St. Anne Hospital for several weeks. She is much improved in health.

We regret to report that Henry Boudreau is a patient at City Hospital, Sydney. We wish him a speedy and complete recovery

Miss Mary LeBlanc arrived from Medford, Mass., to visit her sister and brother-in-law, Mr. and Mrs. Robert Haskill.

BORN—To Mr. and Mrs. David Forgeron at St. Martha's Hospital, Antigonish, a son. Congratulations.

BORN—To Mr. and Mrs. Vernie Poirier ot St. Martha's Hospital, Antigonish, a son.

Friends of Robert Haskill will regret to learn that he is a patient at St. Anne Hospital. We wish him a speedy recovery.

Mr. and Mrs. Willie Dorey of West Arichat, announce the engagement of their youngest dughter, Mary Zita to Thomas, son of Mr. and Mrs. Peter Boudreau, also of West Arichat.

### CARD OF THANKS

DECOSTE—The wife and family of the late Charles DeCoste, wish to express their sincere appreciation to relatives and friends who sent Mass Cards, Floral Tributes and Sympathy Cards and to all who comforted them in the loss of a loved one.

Special thanks to Very Rev. A. P. Poirier, C. A. Boucher and the Choir.

### FROM SYDNEY

E. R. (Teddy) Latimer, of Sydney was a business vistor to Arichat over hte week-end.

Teddy who is a son of Mrs. Dorothy Latimer and the late Irving Latimer, operates a distributorship both at Sydney and Port Hawkesbury for Speedy Propane.

Ted's friends here were pleased to see him.

### TO MASSACHUSETTS

Ernest Marchand accompanied by Peter Boucher, spent a holiday in Massachusetts, visiting friends and relatives. They also motored to Rhode Island whee they visited relatives.

Ernest is the proprietor of the Marbro Motel and is looking forward to a busy tourist season on Island Madame during the summer.

# News Release From Manpower

PORT HAWKESBURY — Manpower and Immigration's services to people in the administrative, professional, and technical fields are helping employers, the unemployed, and under-employed with their manpower problems.

H. R. Hollis, Manager, Port Hawkesbury Canada Manpower Centre, described the services "as part of our continuing program to correct the inbalance between skills available and skills in demand."

"Each of our 69 Canada Manpower Centres in the Atlantic Region is linked to a central clearing unit, listing the qualifications of a widely diversified group," he continued.

"We also have at our disposal a bi-weekly list of employment vacancies for these occupations throughout the region." Administrative, professional, and technical occupations include the arts, sciences, engineering, education, medicine, law, business relations and managerial categories.

"The task of matching the man and the job—difficult in any phase of our placement operation—is especially formidable in this field," said Mr. Hollis. "Many of these job vacancies require persons who can offer university or technical training combined with actual work experience."

"For example there is a need for a construction engineer in Halifax. He must possess a bachelor of engineering degree combined with six years experience in design construction. Another calls for a clinical psychologist possessing a doctor of philosophy degree and a minimum two years clinical experience."

Many of those registered with Canada Manpower Centres throughout the region have just completed several years of university, college or technical training but lack experience in their chosen professions.

"In Port Hawkesbury and surrounding areas, we have been successful in referring 18 clients to various employment vacancies in these categories."

"When client or employer needs cannot be satisfied locally, we refer these requirements to this central storehouse of qualifications and job vacancies," he continued. "During the past eight months we have referred 16 names and 11 job vacancies to this unit for further action. Several more placements have resulted from this action."

Mr. Hollis explained this service is also coordinated with Manpower and Immigration's national clearance system—an instant telecommunications network linking nearly 390 CMCs throughout Canada.

"It is hoped through these efforts we will continue to attract both employers and highly qualified persons to our offices, thus offsetting the demands of the administrative, professional and technical fields."

# Tammy For 1971

The Nova Scotia Society for the Care of Crippled Children presents Patsy Michael, this year's "Tammy", who has been chosen to represent the province's many crippled children who are receiving special care provided by the Easter Seals Fund.

Patsy is the nine year old daughter of Mr. and Mrs. Noel Michael of Micmac Reserve, near Shubenacadie, and was chosen to be "Tammy" for 1971 because her story has the happy ending that the Society strives to achieve for all the crippled children who come under their care.

Nearly five years ago, Patsy was severely burned when gasoline accidently ignited in her father's workshop. Several months later, when she was first seen at one of the Easter Seals Clinics for Crippled Children in Truro, heavy scar tissue had formed over much of her body, causing a contractual deformity of her left knee and arm. She was able to walk only with great difficulty, on tip-toe, and with her knee bent.

After many trips to hospital in Halifax where she received a long series of skin grafts and plastic surgery, she has achieved a complete release of the constricted muscles. Today, Patsy can run and jump and do all the wonderful things that any other active nine year old can do.

On March 9th as this year's "Tammy," Patsy officially opened the 1971 EASTER SEALS Campaign for the province by presenting the first Easter Seals to Lt. Gov. Victor deB. Oland during a meeting of the Rotary Club of Halifax, sponsors of the Easter Seals Fund for the City.

---

In crashes almost one-third of driver injury results from contact with some portion of the steering assembly—either the rim, horn ring or hub. This is a findng of Cornell University Research, quoted by the Nova Scotia Highway Safety Counci. It emphasizes the need for upper body as well as lap belts.

## RESCUE BREATHING (MOUTH-TO-MOUTH)

THE CANADIAN RED CROSS SOCIETY

1. TURN VICTIM FACE UP RAISE neck with one hand and TILT head fully back with the other hand.
2. OPEN victim's mouth PULL lower jaw to jut position. PINCH nostrils shut to prevent air leakage MAINTAIN downward pressure on forehead.
3. PLACE mouth tightly around victim's mouth and BLOW IN. The victim's chest should rise.
4. REMOVE your mouth RELEASE victim's nostrils LISTEN for air to come out of victim's lungs. LOOK for the fall of the victim's chest. PINCH NOSTRILS AND BLOW IN AGAIN.

REPEAT steps 3 and 4 continuously. IF AIR PASSAGES ARE NOT OPEN: CHECK neck and head positions. CLEAR mouth and throat of foreign substances.

*Start immediately. Don't give up. Send someone for a doctor.*

For infants and children, cover entire mouth and nose with your mouth. Use small puffs of air about 20 times per minute.

Apply rescue breathing in case of DROWNING, CHOKING, ELECTRIC SHOCK, HEART ATTACK, SUFFOCATION and GAS POISONING.
